# One-year truce on EEC budget

By Julian Haviland Political Editor

The British Government is ready for a truce in its three-year fight to change the structure of the European Community's budget. The decision has been taken partly in order to maintain the willing support of Britain's partners in the European Community while the crisis over the Falkland Islands continues; and also so that the Prime Minister and the Foreign Secretary and the Foreign Secretary gies on the tortuous nego-tiations with Argentina. A confidential letter was

sent yesterday by Mr Francis Pym to Mr Gaston Thoru, the president of the European Commission, with Mrs Mar-garet Thatcher's approval, which indicates Britain's willingness to accept an extension for a further 12 months of the temporary arrangements agreed in Luxembourg in May, 1980, for paying Britain special rebates.

first, that the rebate should be hefty enough to leave Britain making no more than the "modest net contribuion to the Community in 1982 which ministers consider which ministers consider fair, second, that a binding promise should be given hy the nine that the task of finding a near that the finding a permanent solution should be taken up again within a very few months and completed by the end of the

year.

It may be that the conditions will not be met. The European Commission estimates that Britain would be liable to pay over £900m net in 1982 if no rebate is offered.

Brussels sources say that a rebate of some £450m has

Brussels sources say that a rebate of some £450m has been suggested by the Commission in a letter received by Mr Pym this week. Although no figures are being revealed in London, Mr Pym's reply is believed to stipulate that this offer must be improved by some £200m more. nore. British ministers continue

to insist that there can be no linking of Community decisions on the Falklands, and in particular the renewal of sanctions against Argentina by EEC members, with negotiations over the budget. They are confident that agreement will be reached either by permanent rep-resentatives meeting in Brusels today or by toreign ministers tomorrow to renew sanctions from Monday.

They maintain that Britain, as a victim of aggression, is receiving no more than the support that any other Community member would

expect if so placed.

But several political considerations blur this formal distinction. The blocking last Tuesday by Mr Peter Walker, the Minister of Agriculture, of proposed farm price of proposed farm price increases has caused much bad blood, not least with the French whose Prime Minister, M Pierre Mauroy, is meeting Mrs Thatcher in Edinburgh today. President Mitterrand will be in London

on Monday.

The blocking has been the Government's favoured instrument for compelling permanent structural change

# Harrier jet | Head teachers soften their view on caning

By Lucy Hodges

Head teachers have softened their views on corporal punishment in schools since the European Court of Human Rights judgment declared that it was unlawful to cane children against their parents' wishes. They seem Sir Keith Joseph, Secretary of State for Education, is expected to explain what the Government intends to do. Sir Keith, strongly supported by Mr Rhodes Boyson, the minister responsible for schools, is thought to favour retention of the the European Court of Human Rights judgment declared that it was unlawful to cane children against their parents' wishes. They seem to accept that the end of caning is in cight caning is in sight.

schools. The move comes as several July 1984.

The move comes as several unions are changing their position. The National Union of Teachers astonished the education world by voting for the end of caning and members of the Secondary Heads Association, with 3,500 members. have been told by members, have been told by their legal adviser not to cane pupils whose parents oppose corporal punishment.

The Government's law Those will take several officers under the direction of Sir Michael Havers, Attorney General, are understood to be studying the implications of the European is unlikely to emerge unscathed, particularly as it is the only European country court judgment. When they to officially retain beating in have considered the matter, schools.

By Pat Healy

The Government was yes-terday accused of abandoning

the growing numbers of homeless people by deciding not to extend their legal

rights after a review lasting more than three years. The Joint Charities Group, com-

prising 17 housing charities,

said it was staggering that the Government had turned

its back on official figures

showing a record number of homeless people approaching councils for help.

The group's statement came after the announcement by Mr Michael Heseltine,

Secretary of State for the

to pressure from some Con-

servative councils which say

it places unfair burdens on

them. But the group believes that it will make it more difficult for some honeless

groupings, particularly those judged to be "intentionally homeless". Mr Nichelas Raynsford, director of the Shelter Housing Adi Centre, pointed out passaged that

#### When it pays for the stars to be slim

By the Staff of "Nature" The enigmatic star Eta Carinae is nearing the end of its life, astonomers say, and when it dies it will suffer an enormous supernova explosion, making it-visible even in daylight for

Eta Carinae is the big-gest star in our galaxy, and big stars burn fast. Whereas our own Sun might last another 5,000 million years, a star like transport to death. With stars as with people, it pays to be

The question with Eta Carinae, however, is at what stage are we viewing it — just after its birth, or close to its death?

Dr Kris Davidson, of the University of Minnesota, and Dr Nolan Walborn, of the Cerro-Tololo Inter-American Observatory in Chile, have collected evidence that Eta Carinae is close to its death throes. When it does blow up, it should dominate the sky even though it is 9,000 light years away from us.

Eta Carmae is sur-rounded by a cloud of dust and gas that appears to have been ejected by the star, some of it during an earlier explosion in the nineteenth century, and it is this very obscuring dust that has told Dr. Davidson and Dr Walborn that Eta
Carinae is well into its
development.

Observation with the
International Ultraviolet
Explorer satellite, and with

two large telescopes on the ground, has shown that the gas and dust are rich in nirrogen and depleted in carbon and oxygen. Ac-cording to the standard models of stellar development, a star with such a composition must be run-ning out of fuel.

However, amateur as-tronomers should not begin camping out in the garden yet. For one thing, the star is visible only from the southern hemisphere.
And for another, there are inevitable uncertainties in the measurements. The star could blow up any time in the next 10,000 years, the astronomers say Source: to be published in Astrophysical Journal.

# Moderates win Labour tussle

From Our Correspondent, Manchester

trol of Manchester City istration Council after an internal London, battle with the left wing in the red it the controlling Labour hall. Con group. Labour retained its hold on the council by winning 69 of the 99 seats in last week's municipal elec-tions and then faced a power struggle between the two factions.

At the end of a five-hour private meeting, Mr Bill Egerton, emerged to say that he had beaten a challenge from Mr Graham Stringer, chairman of the left-wing dominated city Labour Party to become the new council

leader.

Mr Ken Collis, his deputy, is also a moderate, and the faction captured the seats on important policy committee.

The first result of the moderate victory will be the retention of the office of lord Mayor, which the city. Lord Mayor which the city Labour Party, in its election manifesto, had pledged to end. Mr Clifford Tomlinson will proposed as the next will proposed as the next Lord Mayor.

● The new Labour admin-won only 26 seats, the same istration in Islington, number as the Liberal-SDP

Until last week's elections, Islington was the only council in Britain controlled by the Social Democratic Party. Only one SDP councillor was reelected and the other 51 councillors are all Labour. Mrs Margaret Hodge, the council's new Labour leader described the decision to hoist the red flag as a symbolic secture.

symbolic gesture. She said: "We want the people of Islington in know that they have a socialist council. It will help them forget the disastrous faw months when the borough fell into the hands of the Social Democrats."

 The Conservatives, who have run Richmond Borough Council since 1965, want to retain control although in last week's elections they

• Fears of increased sec-

the red flag over the town hall. Council officials have been instructed to order a council by taking all committee chairmanships with a conservative mayor having a casting vote and the power of veto. Yesterday Mr Kim Morell, reelected as Conservative leader, told Mr David Wil-

leader, told an David wil-liams, the oppositon leader, that the proposal had been rejected. He offered instead the chairs of two committees. The Alliance members meet privately tomorrow and

the Conservatives meet again on Monday, but the issue will not be resolved until the council's first meeting on Tuesday.
The Conservatives have nominated Mrs June Robin-

son as he new mayor and as the present Conservative mayor, Mr John Lambeth, is still in office, although not a council member, his casting vote will ensure Mrs Robson's election.

#### Top equestrians speak up for fox hunting By Hugh Clayton

Two of Britain's horse riding champions who are also keen hunt members, yesterday joined the growing campaign to save many field sports from legal bans. Mr Richard Meade, holder of three Olympic gold medals from equestrian events, said: "I have hunted all my riding life and can think of no better way of getting my horses to enjoy going across Mr David Broome, a for-

mer world show-jumping champion who is now joint master of the Curre fox hounds, said: "Fox hunting is a very important part of life in the countryside. We must make sure it continues." The British Equestrian

Federation, an umbrella organization for the British Horse Society, British Show-Jumping Association and the Pony Club, said: "Ir is known from experience that the skill and success of our riders in equestrian competitions is largely based on techniques learnt in the hunting field. Their remarks were made

in response to an appeal from hunting organizations for help in countering growing time a Northern Ireland pressure against coursing judge has sat in a court in the republic. The defendant, Owen McCartan Smyth, aged convinced that the next Northern Ireland last night 29, from Managhan, is actually when a Roman Catholic cused of counselling and youth was fired at from a car procuring others to murder the Stronges at their home. Labour general election manifesto will include a commitment to ban many

# The hidden sadness of woodlands' beauty

Fro Ar this time of year, and in idyllic weather, the beech woods of the Chinerus are at said, are at risk from trees becoming over-mature and needing to be felled. their loveliest. But their beauty masks the sad fact that thousands of the trees, planted in the early part of Baron vos Maltzahn, an Oxfordshire landowner and Oxfordshire landowner and county councillor, said yesterday that when British forestry, after years of neglect, was at last regaining a professional attitude, it should be left to professionals and not to local the last century, are dying from old age and need to be

replaced. Yesterday members of the Royal Ferestry Society held their centenary meeting in the woodlands of the Stoner estate. In dappled glades they sat on fallen trunks, discus-

sat on fallen trunks, discussing how to reconcile the economics of modern forestry with the wish to preserve one of England's loveliest landscipes.

An overall plan for the Chilterns was first produced in 1971, by Sir Salph Verney, now chairman of the Nature Conservancy Council. It calls for all woods to be managed in such a way as to perpetuate a broad-leafed forest and emphasized that felling should be phased and limited to minimize the loss of visual amenities.

emenities.

The report was generally welcomed by Indowners as balanced and sensible. But II years on, many feel their motives for falling are still misunderstood and the public does not appreciate how decrepit some of the older trees are.

# White-collar rail staff threaten action on job cuts

هكذا من الأصل

White-collar rail workers are preparing to take industry deteriorate without a fight."

On Thursday night another rail union leader, Mr Sidney Weighel, of the National Union of Railwaymen, predicted that a dispute was about to erunt over British

The 420 delegates at the annual conference of the Transport Salaried Staffs' Association (TSSA) in Bournmouth voted unanimously yesterday for an emergency motion giving union leaders power to take whatever action is needed.

The association is the first rail union to receive backing from members for tough action over the possible loss of 5,000 jobs.

The delegates, represent-"appropriate industrial action" to oppose the planned closures of workshops at Horwich, near Bolton, Greater Manchester and Shilder and Shildon, Durham, and the part closure at Swindon, Wiltshire. They deplored the closure proposals and in-structed their executive to prevent work capable of being undertaken in British Rail Workshops being given to private industry.

Afterwards Mr Tom Jenkms, the association's gen-eral secretary, said: "we can easily cripple British Rail by ordering our members in charge of computers, controlling movements of traffic and of signal boxes, to stop work. No work would take place without supervision.

"But it is the leave of the conference carried unanimously a resolution of the conference carried unanimously a resolution."

"But it is the last thing we want to do, especially be-cause at the moment British Rail has no money.

Mr Trevor Leese, from Horwich, told delegates: "It is not just jobs but the prosperity and future of. whole communities. Divisional Court

Court of Appeal

#### Law Report May 15 1982

# Eviction order appeal

A county court judge was entitled to grant an application under Order 37, rule 5 of the County Court Rules by two long-standing council tenants for a retrial following a registrar's order evicting them from their home. Although the tenants had substrated arrests of cost the home. Although the tenants had substantial arrears of rent, the registrar had acted unreasonably in granting the council possession under section '80 of the Housing Act 1980 and exercise of the judge's discretion in the tenants' favour should not be interfered with. interfered with.

The Court of Appeal so held in dismissing an appeal by Woodspring District Council from the order made by Deputy Judge
Merrett on April 5, 1982 at
Weston-super-Mare County Court
granting Mr and Mrs Donald
Taylor a new trial.

Miss Susan Hamilton for the council; Mr Paul Forrest for Mr and Mrs Taylor.

Woodspring District Council v
Taylor and Another

Before Lord Justice Waller, Lord
Justice O'Connor and Sir George
Baker

Judgment delivered May 10]
A county court judge was

Recently the Department of Health and Social Security had taken over paying their rent to the council together with a weekly sum of £1 off the arrears. With the Taylors' consent the case had come before the county court registrar who decided, having heard all the evidence, that it was reasonable within the meaning of section 34 of the 1980 Act to make the possession order. Mr and Mrs Taylor then applied to the deputy judge for a new trial of the action under the provisions of Order 37 of the County Court Rules.

The council appealed against With the Taylors' consent the

The council appealed against the granting of their application on the ground that it was a wrong exercise of a judge's discretion to order a new trial. But the deputy judge in considering the facts must have concluded their the registrary acting ed that no registrar acting reasonably could have made the

LORD JUSTICE WALLER said that the council had claimed possession of a house that had been occupied by Mr and Mrs Taylor for 24 years. At the date

other was in poor health. There was difficulty in understanding how anyone could have made an order turning them out of their home.

bome.

It was impossible to interfere with the order granting the new trial and the appeal should be dismissed.

LORD JUSTICE O'CONNOR said that in deciding in the Taylors' favour did not mean that Order 37 gave an unfertered right of appeal from a registrar to a judge. On the authority of Brown v Dean ([1910] AC 373) as applied by the Court of Appeal in Devenish v P.D.J. Homes (Hythe) Ltd ([1959] 1 WLR 1188), the order did not give such a right to any dissatisfied litigant: good grounds had to be put before the judge hearing the application.

Where the question in issue was the exercise of a discretion the ordinary rules for interfering with discretion applied. It could not have been wrong for the deputy judge to have concluded that no reasonable registrar could have exercised his discretion as this registrar did and be was thus entitled to order a rehearing.

rehearing. Sir George Baker agreed.

Solicitors: Sharpe Pritchard & Co for Mr J. H. M. Bailey, Weston-super-Mare, Mr Barry Walker, Weston-super-Mare.

Before Lord Justice Donaldson and Mr Justice Webster Undgment delivered May 10]

Undgment delivered May 10]

Where a person was disqualified from driving by justices and in addition a totting-up disqualification under section 93(3) of the Road Traffic Act 1972 was imposed, but was incorrectly expressed in the memorandum of conviction to take effect before the end of the main period of disqualification, a subsequent court was not entitled to go behind such memorandum in the absence of other evidence as to when the total period of disqualification ended.

The Divisional Court so held

disqualification ended.

The Divisional Court so held allowing an appeal by way of case stated from Bexleyheath justices who on May 1 1981 convicted Timothy Robert Holland on two charges of driving a motor vehicle while disqualified contrary to section 99(b) of the Road Traffic Act 1972.

Section 93 of the Road Traffic stated from Bexleyheath justices who on May 1 1981 convicted. Timothy Robert Holland on two charges of driving a motor vehicle while disqualified contrary to section 99(b) of the Road Traffic Act 1972.

Section 93 of the Road Traffic Act 1972 provides: "...(3) Where a person convicted of an offence

Justices erred over totting-up ban involving obligatory or dis-cretionary disqualification has within the three years immedi-ately preceding the commission of the offence been convicted on not less than two occasions of any such offence...the court shall order him to be disqualified for such precident on less than six

order him to be disqualified for such period not less than six months as the court thinks fit... "(S) The period of any disqualification imposed under subsection (3) above shall be in addition to any other period of disqualification imposed (whether previously or on the same occasion) under this section..."

Mr Grant Armstrong for the appellant; Mr Gervase Bradford for the respondent.

The question which arose was whether the defendant had ceased to be disqualified on December 16, 1980 or had remained disqualified until June 16, 1981.

The question arose in the following circumstances. On December 17, 1975 the defendant had appeared before Medway justices on two charges of driving while disqualified and on other charges.

On the first charge a five-year disqualification was imposed under section 93(2) of the Act; on the second charge a further-concurrent five-year disqualification was imposed. The court also ordered dis-qualification for six months in respect of each of four other-offences under section 93(3).

When the five-year disqualifi-cation expired on December 16, 1980, the six-month disqualifi-cation under section 93(3) should have been consecutive to the five-year period by virtue of section 93(5) of the Act.

Turning to the facts as found

proceedings as evidence on proceedings of the court.

Such a certified copy which was before the justices, instead of disclosing an adjudication that the various periods under section 93(3) sould commence on Decem-ber 17, 1980 disclosed and was evidence that the adjudication

and showed that the disqualification for the two periods of five years expired on December 16, 1980 and that the disqualification imposed pursuant to section 93(3) expired on October 24, 1978. Those were the only facts found by the justices.

that everyone who had an interview and got the feeling

The relevance of the certified copy of the actual register of the Medway justices arose in relation to rule 56 of the Magistrates Court Rules (SI 1968 No 1920) which provided that the register of the magistrates court or any document purporting to be an extract from the register should be admissible in any legal proceedings as evidence of proceedings of the court.

in the case stated, the memor-endum of conviction of the commence on April 25, 1976.

Medway justices was produced lt was clear and common before the Bexleyheath justices ground that the certified copy of and showed that the disqualifi-It was clear and common ground that the certified copy of the register was the only evidence before the justices and albeit that it constituted an error of law, that evidence was the only evidence on which the justices

evicence on which the justices, ctuld act upon in deciding when the appropriate periods of disqualification ended.

The justices should therefore have decided that it ended on December 16, 1980 and not June 16, 1881. Accordingly the appeal should be allowed. should be allowed.

LORD JUSTICE DONALDSON. agreeing, said that it was understandable that the justices should construe the Medway justices' decision so as to comply with and not contravene the law. However it was clear that they intended to reach that decision. A freedom which we all enjoyed was the freedom of justices to make mistakes.

make missakes.

The appeal should be allowed. Solicitors: Dudley, Clarke & Son, Benleyheath; Metropolitan Police Solicitor.

# Lessors' notice after repairs is invalid

Three ways to review coroner

Regina v South London Coroner, Ex parte Thompson and Others

Before Mr Justice Comyn Judgment delivered May 12]

There was power at common law and under Order 53 of the Rules of the Supreme Court to review the proceedings and verdict of a coroner's court in addition to the relief available under the Coroners Act, 1887, the Attorney General baving given his finat.

The coroner's court was a court of record and so far as the High Court was concerned it was an inferior court whose findings were often interfered with. The Coroners Act 1887 by section 6 There was power at common law and under Order 53 of the Rules of the Supreme Court to review the proceedings and verdict of a coroner's court in addition to the relief available under the Coroners Act 1887, Mr Justice Comyn said in the Queen's Bench Division when giving reasons for granting leave to 13 applicants to apply to quash proceedings in an inquest and its verdict.

Mr Ian Macdonald for the applicants; Mr Alistair Hill, QC, for the Metropolitan Police Commissioner; Mr Henry and Mr Timothy

were often interfered with. The
Coroners Act 1887 by section 6
gave power to the High Court to
review a coroner's inquest.

R v Surrey Coroner, Ex parte
Campbell (The Times, December
10; 1981; [1982] 2 WLR 626)
supported his Lordship's view
that review of a coroner's
decision was also available under
common law and under Order 53.
The applicants alleged fundamen-

tal and incurable irregularities and under Order 53 there must be power for the court to look at such irregularities.

His Lordship found that quite independently of the Coroners Act 1887, there was power under common law additionally and separately to give leave for a Divisional Court to look at a case.

There was a suggestion in textbooks that under the Coroners Act 1887, where the fiat of the Attorney General had been given, there was no need to seek the leave of the court. His Lordship found that the fiat did not dispense of seeking the leave of the court.

Solicitors: B. M. Birnberg & Co and Singh Kharran & Co, Wood Green; Metropolitan Police Soli-

Sedac Investments Ltd v Tanner and Others Before Mr Michael Wheeler, QC [Judgment delivered May 6]

the lessors' attention to fragments of wall from the first floor level which were falling on to the pavement and they wanted to know whether their insurance cover would be adequate against any claim for injury.

The lessors had an immediate inspection made by a chartered engineer, following which they arranged for repairs to be carried out and they were completed early in May 1980, the total cost working out at some £3,000.

No claim against the Jessees in respect of that expenditure was made until January 1981 when they served a notice under section 146(1) of the Law of Property Act 1925 which referred to a breach of the repairs covenant under the lease and sought compensation for the cost of remedying the breach.

The lessees' counter-notice was sent with a letter which made it clear that the counter-notice was without prejudice to their contention that the notice under section 146(1) was void.

On turning to section 146(1) it Before Mr Michael Wheeler, Que Liudgment delivered May 6)

A lessors' notice to lessees under section 146(1) of the Law of Property Act 1925 claiming compensation for breach of the repairing covenant under the lease after the lessors had carried out urgent repairs to the front wall of premises demised to the lessees at 91 High Street, West Malling, was held to be an invalid notice for the purposes of section 1(2) of the Leasehold Property (Repairs) Act 1938. Mr Michael Wheeler, QC, sitting as a deputy High Court judge of the Chancery Division held that the court had no jurisdiction to exercise its discretion under section 1(3) to give leave to the lessors to commence proceedings against the lessees for damages.

Mr Robert Pryor for the

Mr Robert Pryor for the lessors; Mr Richard Fernyhough for the lessees.

HIS LORDSHIP said that in April 1980 the lessees had called could be seen that the concluding

lines of the subsection clearly contemplated that the breach of covenant complained of had not been remedied at the time when the lessor served his notice because, in effect, they gave a lessee "a reasonable time" after service of the lessor's notice in which to remedy the breach.

The conclusion must be that the section 146 notice which a lessor had to serve under section 1(2) of the 1938 Act as a prerequisite to enforcing a right to damages for breach of a repairing covenant was similarly a notice relating to a breach which at the date of service of the notice had not been remedied.

It seemed to follow from that

remedied.

It seemed to follow from that that a lessor was no longer in a position to give a valid section 146 notice if the breach in respect of which he desired to claim damages had already been remedied.

146 notice and the lessee had then duly served a counter-notice.

The whole scheme of section 1 of the Act appeared to hinge upon the service of a valid notice by the lessor and if therefore, to be effective; the section 1.66 notice had to be served before the breach was remedied, the conclusion could only be that if a lessor remedied a breach and then attempted to serve on the lessee a notice under section 146(1), and so deprived the lesser of his right to serve a counternotice, the court had no jurisdiction to give the lessor for damages.

In the present case the basic The whole scheme of section 1

It seemed to follow from that that a lessor was no longer in a position to give a valid section 146 notice if the breach in respect of which he desired to claim damages had already been remedied.

The lessors here were seeking leave of the court to commence proceedings under section 1(3) of the 1938 Act, that is, where a lessor had duly served a section inder the repairing covenant in

the lease; and the lessors were apparently unaware of their rights under the lease.

Then, when the emergency arose, it was the lessors who took the remedial action but, as it was conceded, without first giving the lessees the opportunity to take remedial action themselves. The fact remained that the emergency was basically the result of the lessees' failure to comply with their obligations under the repairing covenant of

levertheless, the court was bound to conclude that the lesses were right in their contention that because the lessors' section 146 notice had not complied with the requirements of section 1(2) of the Act of 1938, there was no jurisdiction to give leave to the lessors — as contemplated by the Act — to take proceedings to enforce their claim for damages for breach of

iournalists informed

From John Witherow on board HMS Invincible

Radio keeps front-line

One of the standing jokes on board HMS Invincible is that if you want to know what you have been doing all day just listen to the BBC World Service.

The irony underlining this silent ritual of standing near the crackling speakers is that news of major developments concerning the task force is emerging in London with remarkabe speed. However, for correspondents with the fleet such broadcasts have rather lost their himorous They have been told that hour later the BBC announced that Vulcan aircraft they cannot report until the news is announced in London, leading to the sirficial bombed the sirficial made of the attack. Half an

At first it was hoped that the tragic loss of the two Harriers from Invincible in fore to know of develop- an accident could be kept ments but only send the news secret to prevent Argentina secret to prevent Argentina knowing the task forces air strength had been reduced. However, that evening the BRC amounced that not only had the aircraft gone missing but also stated how many Harriers remained with the

the importance of reports from the front line in maintaining the impetus of the war effort and keeping families informed, but it is also concerned that Argentian cherold are gain and the concerned that Argentians cherold are gain and the concerned that Argentians about the concerned that Argentians about the gain and the concerned that Argentians are concerned to the concerned that argentians are concerned to the concerned that are concerned to the concerned to These problems have on occasion placed naval officers in the embarrassing also concerned that Argentina should not gain a military
advantage from despatches.

It is this apparer lack of
co-ordination between the
Navy and the Ministry of
Defence that has led to a
number of problems Some of
the ridictious claims by
Argenting of losses they have position of saying that publi-cation of some items could jeopardize their operations, only to hear it later being

announced.
The crew of Invincible has also made considerable efforts to send the reports as quickly as possible at a time when signal traffic via satel-lite has reached record

But despite this, it appears lunch can still not arrive at newspaper offices from the MoD in time for publication in the first edition, even though it may have left the ship soon after mid-day. So in this particular war it seems that truth is not the

first casualty: merely the time it takes to get it to London.

# Storm is moving in

A large and intensestorm off the coast of Chile is moving towards the Falklands and should affect the islands over the weekend. Latest ship reports indicate winds of 30 to 50 m.p.h. to the north and northeast of the islands with seas quite rough - 20 to 30 ft. Gordon Barnes US Cable News meteorologist forecasts strong gusty winds of 30 to 40 m.p.h. for the Fulklands this weekend with a tot of cloudiness filely below 1,000 to 2,000ft. Visibility will be poor at times the 60 rain and/or snow, but some improvement may occur early next week.

don, leading to delays of several hours in trans-mission. It is possible there-

when it has been released in Whitehall and broadcast by the BBC.

The Royal Navy is aware of

the ridiculous clims by Argentina of losses they have inflicted on the tick force have no doubt encouraged the Ministry into releasing as much information as possible to scotch any suggestion that the British are playing the same propaganda game.

But the Navy would have preferred some of this information to have the mained

mation to have femained undisclosed. The missile attack on HMS Shetheld was one such example. An order came from the Nam to HMS Invincible stating that nothing was to be reported from the task force about the

# Defence Minister criticizes BBC radio inferences

#### **House of Lords**

Viscount Trenchard, Minister of State for Defence Procurement, strongly criticized a BBC radio programme during exchanges in the House of Lords which he claimed contained obvious inferences that HMS Sheffield could have been saved had she bee fitted with the Sea Wolf missile. He expressed regret that no effort was made by the BBC to check with the Ministry of Defence, where special arrange-ments for the media had been set

began questions of the Falkland crisis by asking whether public comments which obviously gave succour to the enemy could be deemed treasonable. What action did the Government intend to

Lord Hailsham of St Marviebone the Lord Chancellor, said: The constitutional position is as follows. It is for courts and not for the Government to decide what conduct is capable of constituting a criminal offence in all the circumstances.

As regards the institution of prosecutions on behalf of the Crown, it is for the Attorney General acting in his independent capacity as legal adviser to the Crown and not as a member of the Government to institute any

Earl Alexander of Tunis: Would he not agree that the so-called balanced reporting in the media is totally out of place in the circumstances, and we should give more moral support to our task force in their attempt to relieve the Falkland Islands?

Lord Hailsham: I am sure he is correct in saying that every possible moral support ought to be given to our task force. I was asked a question of law and it answered, I hope, in appropriate

Lord Cledwyn of Penrhos (Lab), for the Opposition: Is not a charge of treason absurd to the point of hysteria when both BBC and ITV are demonstrating to the world what a free country is all

world what a free country is all about? (Labour cheers).

If the balance appears wrong occasionally is that not due to the sparse and limited information coming from the Ministry of Defence, compared with the flood of misleading and self-righteous propogenda cascading from the courrolled and repressed media of Buenos Aires?

Can the reports from the Can the reports from the Ministry of Defence be a little less funereal and more inspiring? All it needs at the moment is a

harp accompaniment. (Laughter) Lord Hailsham: There are many parts of that supplementary question with which I find myself in sympathy.

Lord Renton (C) asked whether there was a state of war

whether there was a state of war with the Argentines and Lord Hailsham replied: I think I am right in saying that whether or not a state of war exists is a question of public international law. The Government on such matter is advised by the Foreign Office. So far as I know, they have not received positive advice in that direction. Lord Jenkins of Putney (Lab): Is to tundesirable that parliamen-tary immunity should be used to intimidate broadcasters with the result that one of them, Robert result that one of them, Robert Kee, has felt it necessary to recant in The Times this morning

and thereby let down his colleagues? We ought to be careful we do not move into the sort of society we are opposing. (Labour cheers) Lord Hailsham said that last week Lord Jenkin of Putney, in

personnel there now, and the

Miss Buxton said they also

Correction

la yesterday's parliamentary report of the Commons debate of the Falkland Islands, the follow ing remarks by Mr Enoch Powell (South Down, Off UU) were wrongly attributed to Mr David Steel, Leader of the Liberal Party. We apologize to both of

The eventual outcome had to be a definitive agreement without prejudice to the wishes of the islanders, but a definitive agreement arrived at in those circum stances, after those prelimi-naries, was not compatible with the overriding justification and paramount factor of the status which the Falkland islanders voluntarily and freely chose for hemselves.

The country and the world had been told, through the mouth of the Foreign Secretary, that the Government was prepared to accept what six weeks ago was unacceptable, and that the purposes for which the British forces were in the South Adamic forces were second for the south Adamic for which they were second for the south Adamic forces were second for the south Adamic forces were second for the south Adamic forces were second forces were second for the south Adamic forces were second for and for which they were exposed to loss of life and loss of vessels.

had been radically altered.

The divergence to which he drew attention might represent an internal difference of opinion in the Government. If so, Mr Pym could resolve it. If he was not agreed with his colleagues in the purpose for which the operation was being conducted, there was an honourable course. there was an honourable course which he could take. The prime duty to maintain the unity of the Government rested on the Prime Minister. She owed

it to the country, to the forces and to the Falkland Islanders to restore the unity of the Government, to restore the clarity of purpose upon the basis of which the whole operation had begun and in the name of which alone they were entitled to call on the

## Control of imitation firearms

Commons

Cuidelines were being prepared on measures which could be applied to render imitation firearms incapable of being firearms incapable of being readily converted to use live amminion. Mr Patrick Mayhew, Minister of State, Home Office, said in the Commons when the Firearms Bill was read the third time. The Bill applies the provisions of the Firearms Act 1968, with certain exceptions, to imitation firearms which are readily convertible to fire live ammunition.

He said the guidelines would be drawn up in consultation with

he said the guitatines would be drawn up in consultation with representatives of the gun trade and other interested parties and would be made available before the Bill came into force. If the Bill prevented even one mutation firears: capable of being converted falling into the wrong hands and being used with live amunicion for criminal purposes; it would have been more than justified.

To have the restriction at the point of sale or acquisition would greatly reduce the impact of the Bill. It was important that the Bill should apply to possession. He would not anticipate many certificates being granted for readily convertible imitation firearms because it would be difficult for applicants to show that they had good reason for possessing them rather than possessing imitations that could not be readily converted.

Mr Eldon Granths (Bury St Edmunds, C), in Bill's sponsor, said the decision by Parliament to reject the regim to capital punishment was likely to mean more firearms, first and fake, being used in right and therefore means of captrolling them became even more important.

There had been anxiety in the gun trade that the Bill would destroy the bashess and there would therefore be full consultation between it. Home Office and representations of the trade to draw up a code of practice.

While this would not be statutory, it was right that dealers should above what was necessary in dealing with imitation firearms. In meet the legislation. Thereforould be ample time for full consultations and all interested parties would be involved.

No oneishould benefit i from murder A warming that Bard cases must

A warning that Bard cases must not be allowed to make had law was given by Mr. John Farr (Harborough, Chwhen he moved a new clause to the Relief from Forfeiture Bill which provides that a person found wrongfully to have caused the death of another may agely to the court for an order that he may even so, inherit than person's property. The church removed that right to apply from those convicted of matter.

Mr. Leo Aber Poutvocol Laby

convicted of mitter.

Mr Leo Able Foutypool, Laby said that publicated cy demanded that no man may, in the context of the Bill, me woman could benefit from their own wong.

There should be no answer of that fundamental principle, but not every unlarful killing was

now deemed to be murder and the Bill focused on such infortunate deaths.

Mr Ivan Litwrence (Birton, C) said it would be all too easy to set up circumstances in which it would appear that there were compassionate circumstances behind a killing so that financial benefit could follow. benefit could follow.

Sir Ian Pencival, Solicitor General, said the Government, attached the greatest possible importance to the general rule that a person should not benefit from his wrong doing. Nothing should be done to erude that

rule. - . ... If there was a weakness, it was that the court had to answer "Yes or No" to whether, as a matter of public policy, it should allow a claimant to use the courts to enforce a claim. The answer to the question had to be "All or nothing."

It was for the House to say if it thought there should be some wider discretion. Speaking for the Government, he would not think it right to go any further than that He saw an argument for saying

that the present position might be underly restrictive on the court. The Government was inclined to the view that if the House wished to go that far, the Government should help the Soverament should help the sponsors with technical expertise to put that into law. But if the House decided it wanted to go further than that, the Gorage ment would have to reconsider such an offer. The report stage con

the Bill was read the third time.
The Deer (Amendment) (Sc land, Bill which has passed the House of Lords, and which strengthens the law against posching of deer in Scotland, was read the third time.

ates have submitted nominations for the forthcoming by-elections, due to be held within a week. However, it would be surprising were they to be successful. They are considered "characters" in the local political and social set-up. The decision that no NP candidates were to contest the by-election was taken by Alan Paton aged 79, Souh African author of Cry he Beloved Country, the party's central executive committee and announced by Dr Adami during a rally a has left the Saint Augustine hospital here following treatfortnight ago. Indications are that the House of Representatives ment for an aneurysm in his

#### Angolans to die

Luanda.-Three Angolans were sentenced to death by a revolutionary court in The Socialist Government's policy of reflation, and the consequent Government deficit had not led to any increase in production but only benefited imports. France was the only industrial power in the world today to impose foreign exchange controls.

Replying indirectly to President Mitterrand's appeals for unity M Giscard D'Estaing said: "The first rule of unity is not to try to divide people by splitting France into social classes and opposing French people to one another as social antagonists or by presenting today's Government as the irreducible enemy of the Government of yesterday." He implied that when the time came for another democratic change there would be Cabinda, northern Angola for planting bombs.

# Economy overshadows Dominican Republic vote

From Paul Ellman , Santo Comingo, May 14

Voters in the Dominican Reublic go to the polls on Sunday to choose a new president after a bitterly fought election cammpaign dominated by this sugar-producing Caribbean island's rapid slide towards economic

A total of 14 candidates are running for office, but only three are given any chance of

capturing a significant share of the vote. Two of the leading con-

tenders are Senor Juan ship of Rafael Trujillo, who Senor Blanco stands to win Bosch of the Dominican was assassinated after 31 47 per cent, with 25 per cent Liberation Party whose autempt to establish a left-wing meither is expected to win the 14 per cent to Senor Bosch. government here prompted President Johnson to order the intervention of 27,000 United States Marines and

the overthrow of the dictator- According to the poll, mated at 30 per cent.

# Giscard sheds his mourning

nvironment.

inception.

From Charles Hargrove, Paris, May 14 away from the present Social- debts. The budget deficit away from the present Socialist experiment.

The former President showed that he had lost none of his mastery of economic fact and none of his pedagogic skill. He reviewed, on the whole dispassionately, the economic record of one year of Socialist Government. He refused to indulge in polemical debate, and to rejoice in the difficulties of France, was the only west.

The budget deficit threatened to double next year. France was in danger of becoming once again, as the had been in the immediate postwar years, "a republic of deficits."

The budget deficit threatened to double next year. France was in danger of becoming once again, as the had been in the immediate postwar years, "a republic of deficits."

The budget deficit threatened to double next year. France was in danger o

Ex-President Giscard d'Es-taing, by small and carefully calculated steps, has been making his political come-back. He has now shed the last of the mourning which he said he had donned after his defeat in the presidential elections a year ago and shown that he clearly is not disposed to allow M Jacques Chirac to pose unchallenged as the sole leader of the

as the sole leader of the Opposition.

He said the Opposition must be "pluralistic and open" yesterday when he addressed a luncheon of businessmen and employers. It must create "a broad-consensus" and prepare what he called the "after-socialism", which would come about normally through democratic change; by way of elections.

elections.

"The wisdom of Frenchmen has already demonstrated itself in the local The balance of payments elections," he said. The deficit was growing dangermunicipal elections next ously Production costs had year, the parliamentary electricity of the production costs had the production of the production costs had the production of th tions in 1986, and the French firms no longer cratic change there would be presidential elections in 1983 invest and, taken as a whole, an even greater

France was the only West-ern country which had not benefited from slowing down of inflation trends. The fran had been weakened and no longer was regarded as an international currency in a European Monetary System dominated by the Deutsch mask.

presidential elections in 1988 invest and, taken as a whole, "an even greater would be would confirm the trend could not even service their unity for France,"

# Continuing an occasional series Breakfast spread

It hadn't been a good night. Unfortune night. Unfortunately my acquaintance across the table had told me the evening before that Teresina was reputed to be the hottest town in the north. She said it was because of all the minerals in the ground— He tapped out a thunderous manganese, ichrome, nickel. minerals in the ground—
manganese, chrome, nickel, iron, you name it, she said, they'd found it. Especially iron; vast amounts of it, the biggest deposits anywhere, she said. And it made the climate hotter.

It sounded like nonsense to me, but I was in no position

It sounded like nonsense to me, but I was in no position to contradict. Anyway, her information had simply made me feel hotter. The fan was too noisy and I lay down without it, but woke drenched in sweat at four. The light from the corridor shone too brightly through the hole in the wall — it was another of those windowless interior cells — and the light interior cells — and the light switch appeared to have been stolen. I turned on the fan — which evaporated the sweat, which cooled me down according to the Laws of moise", I complained. Thermodynamics — and slept

fitfully on.

fitfully on.

Not a great night, but ob breakfast looked promising. Lots of fruit, both solid and liquid, with biscuits, bread, a cheese and coffee. "No butter here, you see", I said pouncing on a new clue with ha verse. "I suppose in these hot towns in the interior cabutter gets to be pretty much of a luxury. It remember parts of Peru and Bolivia where you never see it at all nois. Understandable really, when you think how much milk it takes to make it, let alone having to keep it in the heat. It used to be pretty much of a delicacy in Europe too, of course. We all eat too much of it now—one of the many insidious forms of decadence that will bring us all down in the and Wa're decadence that will bring us all down in the end. We're out of kilter with the cow. Dangerous. What do they do with all the buttermilk anyway, now that they don't make buttons from it any

Two men came in, both in

everyone in Brazil can look
like that.

It hadn't been a good hips where they supported an inch or two of flab.

He tapped out a thunderous sequence of drum beats on the table top and then, quite suddenly, slumped into immobility, staring mournfully into space. Would you buy a secondhand prospectus from this man?

from this man?

His companion tripped in on hairy legs, wearing shorts and sandals, and ready for futebol. He had curly hair, a messy mouth, and several days' growth on his chin which seems to be an affectation of the virile man of leisure. He also sprang into his seat and rapped out two bars of an even louder samba beat with his room key samba beat with his room key before stiffening with the

"It's because they have rhythm", she said, and observing the breakfast that was being laid out between them by the cook, she added thimmbantly "also. a shade triumphantly, "also, I see, they have butter". "They must be house favourites", I said, reluctant to have my theories disturbed. She turned to the cook and called: "Manteiga? Tem?"
The cook looked and laughed. "Tem", she said, "and the orange juice too.
The boy forgot".

She brought them over. abandoned my thesis on butterless zones, in favour of another much larger vision of the hyperbolic feedback effect on society caused by the desperate attempts of media hacks like myself to seek significance where there isn't any. "In Budapest once" I said,

disregarding the slurp of coffee across the table, "I was going to write a powerful piece about bread shortage. you know, describing those endless frosty morning queues of women at the bakers, going round the block and back again. How miserable they always looked with their headscarfs and their immense empty shopping bass. Then my Hungatheir immense empty shop-ping bags. Then my Hunga-rian friend laughed at me through his gold teeth. 'There's no shortage of bread', he told me. 'There's plenty for all of them. They just like to get it hot from the oven. They spend hours queuing rather than keep it overnight.' I was devastated. I'd almost sent the piece off. Just imagine how much of the world's news is like that. It's been hard to recover my faith."

An overture to the New World The old fortified seaport of La Rochelle is best known in vision, Rousseauesque, of the 'pure' virgin America, the noble savage" (but what of the tortured Jesuits?); "sec-

history as the doomed bas-tion of the Huguenots in 1560-1629. But it has another claim to fame: it played the biggest role of any port in the early French colonization of the Americas. This month of the Americas. This month marks the tercentenary of the French settlement and annexation of Louisiana in 1682, under Louis XIV, and the Rochelais are commemorating in high style.

Today 30 ocean-going yachts will glide out between the two fourteenth century forts that guard the Vieux

forts that guard the Vieux Port for the start of a La Rochelle/New Orleans race. Yesterday, in the presence of the US and Canadian ambassadors, the town inaugur-ated its new Musee du Nouveau Monde, claimed to be the world's first major museum devoted entirely to France's role in the opening up of North America.

It is housed in a stately eighteenth century mansion which, appropriately, was formerly the home of a Rochelais shipowner and sea trader. The museum's cre-ator and curator, Alain Parent, has assembled 250 varied exhibits which may remind a British visitor of what we tend to forget: that until the late eighteenth century France was as active as Britain in the drive for

American expansion.

Among the exhibits are a gruesomely realistic oil painting (1664) by Pere Bressani of Jesuit missionaries being tortured to death by Iroquois Indians near Quebec; a cannonball with the fleur-delys on it, used against the British at Quebec; water-colours of Indian warriors and Indian domestic life; and early photographs of tim-bered Norman farmhouses amid the Louisiana land-

scape. allegorical painting, France supporting America, marking their joint victory over the British at Yorktown: of the two female figures soaring aloft, the young and fragile America, half naked, looks up gratefully at her champion, the mighty France, brandishing a sword.

Parent says: "My museum

La Rochelle/John Ardagh

ond, the French kings' dream of a New World empire". ond, the French Rings uream of a New World empire".

They almost won it. For many years it seemed that French, not English, might become the dominant language and culture of all North America—and what a different place that would have made the world today. But finally it was the British who triumphed. Even so, there are still three million French native speakers in the US—in addition to those in Canada.

As for La Rochelle, it

As for La Rochelle, it has many echoes of this saga in its arcaded streets, where the merchants and sea cap-tains once grew rich on American trade. To my mind, this is the most attractive coastal town in France, with something of the same quality of, say, Bruges or Dubrovnik, After 1568 it was an independent Protestant republic on the Geneva model. Today, the Prot-estants are few; but the citystate mentality persists, rather as in Venice. The people seem to inhabit a

realm of their own, a citystate of the spirit.

This week, the warm
spring sun shone dazzlingly
on the scoured white stone
buildings. From the lovely
Renaissance mairie with its
beliry and battlements, a

# A classical centenary

Next Saturday lights will go Bradfield, spent a term on a up in a converted chalk-pit in fellowship at Oxford to set up majestic opening of the pounds, with professionals oldest extant tragedy in the designing the set and Western world. For the costumes, and composing the centenary production of its music.

Greek play Bradfield College It is all very splendid. But has chosen The Persions by has chosen The Persians by Aeschylus, first played 2,543 years ago, and as far as I can see, performed only once before in the original Greek in the modern world. It is a suitably ambitious pro-duction for a remarkable

English institution. The Greek play was intru-duced to Bradfield in 1882 by Head Master Herbert Branston Gray with a performance of the Alcestis. He played Admetus himself. The schoolboy critic observed tactfully of his performance: "We cannot too highly praise Mr Gray's Admetus. His part was the chief, and the most arduous, and be performed it as none but a scholar and a genlemanm could perform it." Six years later, inspired by a visit to Epidaurus, he led his boys in coverting the chalk-pit into a scaled down model of the greater Greek theatre. Since then generations of schoolchildren. classicists, and theatre-lovers have huddled from the summer showers and shifted uneasily from buttuck on the concrete to watch the roots of our theatre performed as they were originally written.

This year for the first time a girl from Bradfield is in the play, taking the part of Atossa, the Queen Mother. She is not quite the first female to tread the chalk-pit orchestra, since Dr Gray's wife gave several spirited performances as Antigone in the 1880s. These days only half a dozen of the cast of 27 are Hellenists. The rest have been learning their parts, first of all by rote, and always with prodigious labours, since Michaelmas. Christopher Stace, the direc-tor and head of classics at

● The world premiere of Barbican Cinema 1 during Hans Werne Henze's Clarinet June. Sundays will be de-Concerto, subtitled "Le mir-voted to Shakespeare on film; acle de la rose", is to be given in the Queen Elizabeth Hall on May 26 by Antony Pay with the London Sinfonietta conducted by the composer. Immediately after the concert the Sinfonietta emburks on a European tour with the theme of "Henze and the younger generation of British composers"; there will be concerts in Paris, Florence, Rome and Milan as well as in Germany and Switzerland and other northern Italian towns. Soon after that the Sinfonietta will make its first visit to Iceland to play in the Reykjavik Arts Festival.

Berkshire. Enter a Chorus of the text. The production Persian Elders to intone the costs many thousands of

> in this day and age, when classics are no longer Queen of the curriculum, is it not something of a Victorian Folly? Would the puils of Bradfield not be more profitably occupied performing Shakespeare, or Pinter, or, for that matter, making transistors?

> You could justify it by saying that the boys love it, and would not hear of doing it in English. Schoolboys are conservative little beasts, and like something that makes their school different. You could say that it is the best game that Bradfield plays. Producing a Greek play in the open air is a cross between conducting a sym-phony and playing chess, and the real hard teamwork is done in drilling the chorus.

The only justification that matters is that it is a nonsuch authentic production of a great play. The Persae may not seem much of a play: not a lot of action, not a lot of plot, certainly not a lot of laughs. But Aeschylus went to the heart of universal to the heart of universal questions of national pride and its fall, compassion for the enemy, and the paty of war. To put it on in Athens only eight years after the great victory, which he watched and probably took part in, was almost as daring as putting on a play set in Berlin and offering com-passion to the Nazis in 1950 in London. On Saturday and in the following week Brad-field College will celebrate its centenary by reviving these still topical questions as they

Tristan und Isolde: Gwyneth Jones and Jon Vickers

#### Opera/William Mann

Tristan und Isolde

Covent Garden

Prommers at the Royal Opera House on Thursday paid £2 to see and hear a thrilling performance of Wagner's sublime love poem. We used to take it for granted that a distinguished Tristan cast must include some German or Austrian, or at least • More than 70 films, divided into five distinct "seasons", are to be shown in the screened on May 24.

Competition in the Best Short Subject category at the Cannes Festival. It will be cast from international strength and all the singers ome from Britain or the

Commonwealth, the conductor as well. Sir Colin Davis launched the Prejude with a wealth of intensity and noble orchestral sound not attempting to restrain the weight of its climax, which bade fair to bring down the cupola, but did not dwarf what followed - its effective reprise, at Isolde's "Ich trink sie dir" was at least as powerful. The ROH orchestra was in glorious form rising to all the great challenges with Sir Colin and the singers in-

The anguished, searing unravelment of thematic working in the third act monologue, "Muss ich dich so verstehen" owed much to eloquent woodwind solos, and more to Sir Colin's painstaking exposition, but chiefly to the vocal acting, the rapacious physical inten-sity with which Jon Vickers accompanied and realized it.

SCARLATTI: Six Sonatas

CHOPIN: Ballade in A Minor,

Mazurka in A Minor, Scherzo in B Minor

LISZT: Ballade in B Minor, Consolation in

D Flat Major, RACHMANINOFF: Two Preludes

Sir Colin invited us to utterly consumed by humili-wonder at the magical fili- ation, frustrated fury. As she gree of the intricate string pours forth her tirades and textures in Brangane's imprecations, the uninhibited aubade, it was ultimately the venom of her delivery is soaring burnished radiance contradicted by a facial of Yvonne Minton's singing expression devoid of any that made the passage so communicable feeling. When

tender Kurwenal, the tone sometimes frayed at the her pride are too great to edges, but confident and less permit anything so human. uncomfortable than before; Gwynne Howell's King Mark, touching invulnerability, by no means antique and never boring; Philip Gelling's unusually selfassured Melot. The vocal music in the opera, the Sailor's song from the crow's nest was attractively and strongly sung by Lawrence Dale.

The special fascination of

opportunity to encounter ryneth Jones's Isolde. To ful effect. note that she drops con-sonants and often pitches sharp, that she presses sharp, that she presses unduly upon her instrument until it rasps (even in the Liebstod, which should sound sublimely service even in life's utmost fulfilment) is to repeat the obvious. Jones's voice is in steady condition, and quite big enough to

imprecations, the uninhibited Tristan enters her quarters, The cast includes Donald her taunts are pure ice, McIntyre's bluff and true and without sarcasm or even resentment - her grudge and

The transition to womanly feeling is marvellous to watch and hear. The workof the notion out the both is vividly realized in this revized staging by Jeremy Sutcliffe, tidy and lucid. But it is perhaps flawed by the demure behaviour of the lovers in their great duet, and by the device of freezing the actors into a tableau this revival is London's first while the music continues contrived, not properly help-

By the second act this Isolde has relaxed into wide eyed girlish naivety and an infatuation beyond her in the infatuation beyond should understanding. Jones not fully visualize the ting with Vickers, though he at last has an Isolde worthy of his great tragic Tristan. She shows herself completely German audiences who admire a dramatic soprano only when she makes heavy work of her music). Her interpretation of Isolde is potentially a masterpiece, already very riveting.

On board ship she is She shows herself completely woman and heroine only after Tristan's death, beginning the Liebestod like some wise-woman in an uplifted trance, crumpling slowly when she sinks down at its end — not yet quite effortlessiy.

Contrary to the statement in yesterday's opera column in Preview there are two more chances to hear Eugene Onegin at Covent Garden, May 20 and May 22, Kiri te Kanawa has had to withdraw from the revival of Simon Boccanegra, which opens next Tuesday, because of family reasons. Her place is taken by the Swedish soprano Helena Dose.

#### Television/Michael Church

drama is alive and kicking. Prey that evidence is ready to hand, and even the wayward Playhouse series is going through an interesting patch. Last week's offering, Rhys Adrian's Passing Through, was (if I may respectfully dissent from another view expressed in these columns) a moving and highly ac-complished piece of work; Jake's End, By Desmond Lowden (BBC 2 last night) was an equally accomplished essay in that popular genre, the everyday story of bank-robbing folk.

The setting was Southampton, looking very fetching in 57 varieties of sea mist, but the accents were pure Sarf London. Jake (Maurice O'Donnell) was a chubby Bogart lookalike held in awe by his gnarled and pinched accomplices as an infallible fixer of dirty jobs. The story was complicated — not being an aficionado of this genre, I could not follow its more labyrinthine twists - but its essential lines were agreeably ension-inducing.

Pulled one way by his

While the Play for Today slot remains in the baleful clutches of the Plays for Tomorrow gang we must look to other nights for evidence that BBC drama is alive and kicking between two schools of the control of the con No problem: with The thought in the gangster Woman in White and Bird of world. As several heavily sociological stretches of dia logue implied, life on the street, was changing, and villains with an addiction to violence were forcing ordinary decent criminals to carry shooters and batter each other with crowbars. Unfortunately for Jake these conflicts came to a head during a very messy bank job, and Nemesis overtook him in the form of a friend he had cuckolded turning up on his doorstep with bammer.

Looking back, I am in two minds about this play as, suspect, were its writer and director, for it was much more than a mere nail-biter. The passages between Jake and his wife may have been stiff and stereotyped but the scene in which he revisited his childhood flame had a real, if muted, poetic resonance: for perhaps three minutes we were in a different world. But only for three minutes: the other world, under Jim O'Brien's baton, sprang dizzyingly back into life, every significant detail brightly burnished. Radio/David Wade

# Just how important is IQ?

tertain circles and infimediately red mists come up before the eyes. Is he not the man who says that intelligence is entirely a matter of genetics and inhertance? We tend to think of IQ as useful programme — not the measure of human least because it revealed a capacity — probably, I susquite different view of a man blacks are genetically less intelligent than whites and therefore natural shordinates in the order of things? Is the not some kind of fescist? fascist? Last Wednesday's

Seeds of Intelligence (Sadio 3) took the form of a discussion between Jensen and Pro-fessor A. H. Halsey which the latter courteouty and ably extracted an account of ably extracted an account of the present state of Jensen's thinking on the heatability of IQ in groups and individuals. It seemed to be that that thinking bore almost no relationship at all in what some of its critics disclare it to be. What causes differences in

human capacity is an enor-mously complex subject — so much so, in fact, that it may seem impossible to compre-hend. Scientists tend to respond to this by dividing it into small parcels in the hopes of understanding it piecemeal. Their effort is almost inevitably coloured to some extent by pre-existent beliefs about what the pic-ture ought to be—although even this, provided it is conscious, should put the scientist a step of two ahead

# The old ceremonial to put everyone on their metal

مكناً من الأصل

Consumer protection at its most ancient and dignified was celebrated last week. No petty wrangling in the small claims court this, but the verdict of the 700th Trial of the Pyx in the lofty halls of the company of Goldsmiths.

so. The Queen's Remembrancer, Master John Ritchie, Senior Master of the Supreme Court,

halls of the company of Goldsmiths.

Without the trial no consumer is safe, for who can be sure of anything if the coin of the realm is suspect? The serious business of testing samples of all coins for weight, size and purity takes place in February each year. The luncheon to celebrate the findings last week revealed a good deal more than the verdict.

The Master of the Mint, the Complete Oxford English Dictionary announcing the Subscience that the speculated this year on the Suscience that the Dictionary announcing the Dictionary announcing the Subscience that the Subscience of the Dictionary announcing the Dictionary announcing the Dictionary announcing the Dictionary announcing the Subscience that the specul

have been financial supremacy, but clout is certainly the operat-ive word, for precedence seven centuries ago was often deter-mined by "affray".

mined by "affray".

At that time apprentices had nothing much to do of an evening after they had finished in their workshops and they used to gather in the streets shouting "my guild is better than yours" or the medieval equivalent of "Put the boot in, Ethelred."

Pitched battles would ensue, involving up to 500 youths, and the winning side achieved a higher place in the pecking order. When the Skinners, in sixth position and the Merchant Taylors, in seventh, came to blows, the result was a dead heat, so the mayor of the time decreed that they were to change positions each year.

But he added that if the mayor

itions each year.

But he added that if the mayor in any year came from the campany that at the time was lower in precedence, the order should change for his period of office and be restored the following year. This ruling created such confusion that it resulted in the expression, handed down through the centuries, of being "at sixes and sevens."

being "at sixes and sevens."
Those who enjoy tracing such verbal links with history might like to note that Selfridges are having an exhibition of livery companies from June 28 to August 28, which will include all heavy ressions which areas from the expressions which arose from the livery traditions and which, like the Pyx, are always with us.

Puzzle in round

Introducing the DIY Insanity Kit

a spherical puzzle studded with
coloured beads to be manipulated
in the manner of the Rubik Cube,

but with an extra dimension -

this one rattles.

The sphere, called Orbit, has four unconnected tracks filled with heads in four colours — red,

withheads in four colours — red, blue, yellow and green. The aim is to fill each track with beads of only one colour — done by turning the two hemispheres and clicking each bead along. And click they do, in all their 592 million million million million combinations. And whoever worked that out must have been pretty datty, too.

Once you have mastered the simple version you can make spirals and loops. A leaflet shows

Thirdiabolical British inven-tion costs £3.99 (£1 p & p) from

Hambys, 200 Regent Street, London W1. I can tell you, I shall

go into orbit if anyone.. ever brings another one within twitch-

all the possibilities.

## Shapes plucked from the air

On show for the first time this week is a collection of ceramic planters designed specially for air plants. For those who like the individuality of hand-thrown clay pots, but are unsuccessful at nurturing the conventional plants they usually contain, this seems an ideal solution.

The planters are created by Beth Blick, who has specialized in plant containers for some time but has now discovered the exciting possibilities presented by the types of plants that draw their nutrients only from the air.

Unhampered by the need to provide a container for soil, she has invented a most original series of sculptural shapes in natural, earthy colours, each echoing or complementing the natural flow of the foliage.

around the plants, rather than in pots to hold them," she says. "There are about 40 different varieties of air plants, all with different shapes, so the possi-bilities are endless. You can create whole murals of plants when you don't need soil." And she will, too, to commission, if

On the planter illustrated, one plant is held in position by an almost invisible nylon cord, the other is simply placed in the fold of the pot. The only care necessary is an occasional spray with water. It costs £28.50 and is one of an exhibition of 44 air planters, each one different, at Heals, Tottenham Court Road, WI until June 12. Prices are £19 to £89 and there is a collection of small planters at £5.50. Beth Blick can be contacted for special

# A stylish new look for fur

Furs in May may at first seem on the pessimistic side, but this is the time to think about having thom cleaned and remodelled them cleaned and remodelled before storage. This quilted blouson in waterproofed silk may give you some ideas for turning an outmoded fur into something stylish.

Made by Delba Boutique of Milan, the blouson has detachable

sleeves and can be worn as a reversible jerkin. You can have it lined with any fur or you can supply your own to be turned into the lining, which buttons out

The silk blouson, unlined, is available to order through Deanfield Furs, Bruton Street, W1. It costs around £275 — fur

Among other furriers who offer a remodelling and cleaning service and who say they are prepared to undertake any job; however small, are Murray Bennett Ltd, 19 South Molton Street, W1, telephone 01-629 2757. Charges for cleaning a mink Charges for cleaning a mink jacket, for example, are from £11.50 — more, of course, if the skins are brittle or need repair.

# For the real thing — join the club

It is hard cheese these days for those who really know their Quark from their Elbo. The hermetically sealed rubber sold in supermarkets and even the apparently genuine cow products sold in the local deli, have, I discovered this week, very little to do with real cheese. Most of us have been conditioned to forget what the genuine article tastes

I can now speak with authority because I tried a sample selection from the newly formed mail order cheese club launched by Paxton & Whitfield of Jermyn Street, cheese specialists for more than two centuries.

The sampling was a revelation.

Gruyere was not, after all, soap. Camembert made the farmhouse way does not come out like sponge. English blue Cheshire is not mousetrap with mould. Each cheese had been selected

at the peak of condition — and the difference was remarkable. The Gruyere, for instance, is specially made and matured in Switzerland for eight months before Paxton & Whitfield will process it was a second to be a se

live too far from Jermyn Street to make their own selections. Each member receives a mon-thly selection of five 12oz

cheeses, or portions — one English, one blue and three foreign. With the cheese comes a newsletter and a set of coloured leaflets giving information on the history and manufacture of each. The charge is £9 a month, but

there is no annual membership fee and you are not committed to a delivery every four weeks. With each selection comes an order form and if you don't fancy the next flavour of the month you can wait as long as you like before ordering again. There are ten selections a year and twice a year members may choose to reorder their favourites.

More information from Paxton & Whitfield Cheese Club, 93 Jermyn Street, London SW1Y 6JE, telephone 01-930 9892. Believe me, you will never serve pre-formed plastic with your ploughmen's lunches again.

If you are looking for some rather special wine to match the quality of your cheese, Sotheby's New Bond Street, W1, will be selling more than 1,000 lots from rare private collections on June 2 at 10am, 2.30pm and 7pm. Included will be clarets from 1861 to 1975, ar 1998 Cheesen 270 mer. to 1975, an 1898 Chateau d'Yquem and five lots of the forbidden fruit — absinthe.

My gournet weekend did not stop at cheese. Tesco sent me more than a taste of honey four 1 lb jars of their new own label selection, in fact. Pure Mexican and Pure Australian are both 75p but a touch undistinguished for my taste, but Acacia at 87p, which is light and clear,

and Pure Canadian at 90p, tasting like clover petals dipped in butter, are both delicious.

I also tried some of the interesting and unusual fresh vegetables from Vinegar Joe's. accept it — and each wheel has to
be at least 8in deep.

The idea of the cheese club is

vegetables from Vinegar Joe's, a
newly opened up-market supermarket in Hampstead. The aim of to reintroduce real flavour to owner Martin Dyer is to intro-people who have the discriminatmet before and he has special deliveries every week direct from

Rungis market in Paris. This week he had fresh basil from the South of France, red lettuce, inch long Japanese artichokes, pleurottes — the French mushrooms that teste like fillet steak — tender baby spinach (£2.20 lb, but 60p's worth serves two as there is no waste).

two as there is no waste).

There will be different seasonal selections each week for, as Martin Dyer says, there is no point in importing mint once you can get it in your own back garden. Best time to go to Vinegar Joe's is Thursday evening — or Friday morning if the customs have held up deliveries. The address is 68-69 Hampstead High Street, NW3.

Mondays).

and Treehouse in the Garden 275 Camden High Street, NW1

Bacon and eggs are the basis too of that other splendid American insti-tution, Sunday brunch. Two of this week's recipes are from an American friend who rates jogging, or sneak-ing back to bed for another snooze higher than juggling frying pans on a Sunday morning. She bakes brunch.

The third dish, spaghetti alla carbonara, is of course Italian. This is one of the ways bacon and eggs are eaten in Italy and the recipe does not include cream as it sometimes does in Anglo-Italian restaurants. The bacon should ideally be

Sprinkle half the cheese over pancetta, an unsmoked variety which looks rather like a giant salami. It is often found in Italian grocers, but English bacon, smoked or unsmoked to taste, is an acceptable substitute.

All these dishes are equally at home on a lunch or supper table and useful standbys when there are unplanned-for mouths to feed.

Ham and cheese souffle Serves four

8 slices crustless white bread ∮ slices cooked ham

% teaspoon salt

% teaspoon dry mustard 300 ml (L pint) milk Make four unbuttered sand-

in a pre-heated moderate oven (139°C/350°F, gas mark 4) for about an hour, or until the custard is puffed and firm. Serve immediately.

Cheese and egg bake

110g (40z) grated Cheddar

4 large eggs 4 tablespoons single cream or

Sprinkle half the cheese over the base of a buttered oven-proof dish. Make four shal-low depressions in the cheese and break an egg into each dip. Sprinkle the remaining cheese and the milk over the eggs and season them lightly with arrest innamon. salt with ground cinnamon, salt

and pepper. Bake the dish. uncovered, in a preheated moderate oven (180 C/350F, gas mark 4) for 20 to 25 minutes, or until the silced, lean gammon steaks.

Spaghetti alla carbonara Serves four to six 225 g (8 oz) pancerta or streaky bacon in one thick

slice 4 cloves garlic, peeled 2 tablespoons olive oil 30 g (1 oz) butter

4 tablespoons dry white wine Salt and freshly ground black

450 g (1 lb) spaghetti 3 large eggs 85 g (3 oz) freshly grated Parmesan cheese 3 tablespoons finely chopped

Chop the pancetta or bacon into sticks or dice and bruise the garlic cloves with the flat of a knife. Heat the oil and butter together in a small saucepan and add the pancetta or bacon and garlic. Cook them together until both are golden, and add the wine. Boil until the wine is well-reduced, then discard the garlic. Keep warm.

Cook the spaghetti, un-covered, in plenty of boiling salted water and drain it as soon as it is tender but still has a little bite in the middle of each strand.

Meanwhile, break the eggs into a warmed serving bowl. Add the cheese and paisley and a generous sprinkling of black pepper. Beat lightly together. Add the hot spaghetti and toss it in the egg mixture until it is well coared. Add the pancetta or bacon with Add the pancetta or bacon with fat and toss the spaghetti its fat and toss the spaghetn again to combine the ingredi-

Serve immediately.

Still in my money saving vein Still in my money saving vein may: I suggest ways of filling our gardens with biennials and perennials at low cost—always provided we have the patience to wait one, or two years for our flowers. Today I am thinking about hardy border flowers from seed. Later I will look at rock garden plants which may be garden plants which may be raised from seed or propagated easily by cuttings.

This is the time to sow the orange or yellow Siberian wallflowers, varieties of Cheiranthus allionii which, as they always do, have come through the bitter winter unscathed. The ordinary wallflowers should be sown now too, and there is a new dwarf variety "Carmine Bedder" in the Hurst Garden Pride range. Wallflowers sown now and lined out when large enough, fed and watered will provide large bushy plants for setting out

So too with foxgloves, myosotis, sweet williams, Canterbury bells, daisies (Bellis perennis, varieties) and Iceland poppies. Sown soon in boxes of seed compost, in a cold frame or under some cloches they may be pricked off and grown on until they are ready to plant in the autumn.

Look in catalogues and indeed in the racks of seed in garden centres for F, bybrids—they are always worth the extra money. I make no excuse for enthusing about the new F<sub>1</sub> pansies, "Azure excuse for entitising about the new F<sub>1</sub> pansies, "Azure Blue", "Sunny Boy" and "Sunny Gold" yellow, "Imperial Light Blue" and "Imperial Yellow", "Indian Boy" rich red and the several Fi mixtures available.

We raised a good number last year and now we are

# Gardening/Roy Hay

# Planting profitably

winter we have had pansies in bloom — some even reappeared quite cheerfully in flower after the snows melted.

The genus Campanula is really remarkable for the number of fine garden plants it has given us. Those suitable for the rock garden I hope to deal with another day when I offer ideas for raising rock garden plants from But I would like to men-

tion here both the blue and white forms of the chimney beliflower, Campanula pyra-midalis a splendid hardy biennial; as its name suggests it makes a shapely plant about three to four feet high or even more. It is also a splendid plant to grow in a large pot or tub to flower in a cold greenhouse, sun lounge, or to grow outside and bring into the hall or a large room into the terms of the second just as it comes into flower. I first saw it, in full flower, three plants in large pots or small tubs lining the entrance hall to some chateau in Touraine when I went on a school tour of France.

They were selling seeds of it at the souvenir stall and I it at the souvenir stall and I spent some of my precious francs on a packet. Father, I remember, was not very impressed by my gift, as his house in Hyde Park did not have a hall big enough to display a tubful of this landsome stacies we have handsome species. We have a sun lounge however and have planted up several large pots with the idea of bringing

reaping the benefit. The them indoors towards the they have patience they may plants will flower for many end of the year.

The modern varieties of from a packet of seed costing The modern varieties of

biennial flowers may be counted upon to come very true and even from seed. So too will some perennial flowers, but with others the eedlings may show considerable variation. It is not generally realized that vast numbers of perennial flowers sold in small pots or con-tainers in garden centres have been raised from seed so that there may well be variation in colour, size of flower, or height and habit of

This does not matter very much if we raise these perennials from seed. If our of a batch we decide to discard some of the less desirable seedling forms this is no great loss and one can then proceed, in time, to propagate the better forms by division or cuttings, whichever vegetative means is appropriate.

Of course, so many people are in a great hurry these days and are prepared to spend between 50 and 100p for a small perennial plant. If

JNK-STAKES

from 25p upwards according to the variety.

This is an area where cooperation between several friends pays off handsomely. If they club together and buy a packet of say a dozen or even more different perennial seeds and share out the seedlings, in a couple of years they can have some really colourful beds and borders.

The nearer these perenmials are to the original species, the less likely they are to show wide variations in the progeny - Lychnis

chalcedonica is perhaps the most vivid scarlet herbaceous most vivid scartet nerosceous plant; Statice dumosa and S. latifolia: the everlasting sweet pea, varieties of Lathy-rus latifolius in a mixture of red, rose or white flowers are fine value; the balloon flow-er, the blue Platycodon grandiflorum 'Mariesii', the Chinese Lanterns, Physalis franchetii), Incarvillea dela-vayi, Dictamnus fraxinella, the burning bush; and Malva alcea fastigiata — all these breed very true from seed.

following may be relied upon to give a good percentage of excellent seedlings: lupins, delphiniums both tall and dwarf, Scabiosa caucasica varieties, coreopsis (not to be confused with the annual varieties), gaillardias hemerocallis, monarda, knipholiz callis, monarda, kniphofia (red hot poker) and penste-

by David Carlton

'Thore are always weak sisters in any crisis and sometimes they will be found among those who were toughest at the start of the journey." In this one sentence in his memoirs, Anthony Eden revealed the extent of his bitterness at the conduct of some of his contemporaries during the

Without doubt he felt particular contempt for Hugh Gaitskell, who at the time of Colonel Nasser's seizure of the Canal had reacted with even more rhetorical venom than any Government minister. "It is all very familiar", he declaimed in Parliament. "It is exactly the same that we encountered from Mussolini and Hitler in those years before the war."

But as soon as it had become apparent that the Government was preparing in the last resort to use force, Gaitskell began to emphasize the need to do nothing without the sanction of the United Nations. Hence within a few weeks of Nasser's coup — long before any collusion with Israel had begun — the tone of the Opposition's questions to the Government had entirely ceased to have a bipartisan flavour. A despairing Eden said to Iverach McDonald of The Times: "Poor country, how can we do anything when divisions are pressed so

As Mrs Thatcher listens to the present Leader of the Opposition she might reflect on how history is repeating itself. Michael Foot's initial reaction was robust in the extreme. But having played a full part in arousing an irresistible public appetite for risky military action, he is now slithering towards the Peace Party. Meanwhile Denis Healer have been supported to the process of the party of the peace party. while Denis Healey has taken to asking awkward Parliamentary questions clearly intended to undermine public confidence in Her Majesty's minister's and which have no doubt been noted with appreciation in Buenos Aires. "Poor country, how can we do anything when divisions are pressed so hard?"

Despite these and other obvious distinctions, the parallels with Suez at this juncture seem quite as striking as the differences. For example, neither crisis could be settled rapidly. Military unpre- paredness meant that in each case a long fuse had to be

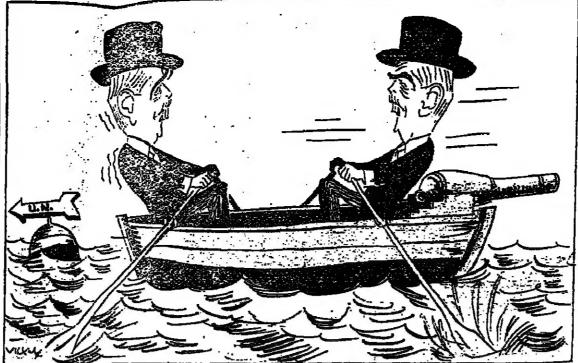

This in turn was bound to create opportunities for leading actors, at home and abroad, to modify their initial positions. The support of allies tends to erode; the attitude of the media and of public opinion may undergo considerable fluctuations; political supporters and opponents of the Prime Minister have plenty of time to discover unexpected policy refinements, possibly leading them to new alliances of convenience. convenience.

For any Prime Minister, pro-longed crises of this type must greatly increase that sense of loneliness and vulnerability which goes with the post at the best of times. The inevitable stress and anxiety, combined with the endless flow of telegrams and meetings, is almost bound to undermine the Prime Minister's capacity to avoid mistakes that will seem obvious

in retrospect.

Another parallel between 1982 and 1956 is the timidity with which the military response has been approached. Consider Mrs Thatcher's unwillinguess to issue a formal ultimatum or to declare war. Is there not a certain piquancy in her decision to follow in this respect the example of Eden rather than that of Neville Chamberlain?

The Iron Lady, in contrast to the Man of Munich, has accordingly been seen floundering when questioned whether or not pris-

How Vicky saw the Eden dilemma --- a Daily Mirror cartoon of August 17, 1956

prisoners-of-war. Again, like Eden, Mrs Thatcher has decreed that minimum force should be used and that attacks on the aggressor's heartland should be avoided. Those who wage quasi-wars rather than allout wars should not be surprised if they end up with quasi-vic-tories or even quasi-defeats.

But in 1982 no less than in 1956 there may be limits to what can be attempted in circumstances in which United States interests are, to say the least, not entirely identical with those of Great

even have discussions about a negotiated settlement involving something other then the restoration of the status quo ante.

In 1956 Lord Hankey, the former Secretary to the Cabinet, and a man of vast experience, was bitterly critical of Eden's decision not to demand the reinstatement of the rights of the Suez Canal Company. When, instead of keeping matters simple, Eden called for the interna-

US and the UN. Another parallel between Mrs
Thatcher and Eden is their
willingness to contemplate and

tionalization of the Canal he

opened the door to interminable negotiations involving both the

winter and to allow indignation about his coup to wane. The comparison with the present slithering towards talks about UN trusteeship for the Fallback UN trusteeship for the Falklands is all too obvious.

I have emphasized that the present crisis, like that of 1956, has become in part a domestic political contest. The opportunism of the Opposition is of course transparent. But there may be another dimension to the domestic aspect of the crisis. If Eden's experience is any guide, Mrs Thatcher may well be having to face, behind closed doors, the opportunism of colleagues. less in In Eden's case, troubles within Butler his own Cabinet room reached sistent

Egypt, thereby enabling the British and the French to be the Canal on the pretent of Separating the combatants.

He had to face opposition to two divergent quarters. First, Walter Monckton, the Minister of Defence, made clear his diap-Defence, made clear his diapproval of the use of any king of force. Then R. A. Butler opined that so devious a means of tackling Nasser would be risky; instead he unexpectedly and for the first time in the crisis cled for a straightforward as ault aiming openly at recovering British property. British property.

Though Eden's devious was approved, neither Mone ton 200 Butler resigned from the Cabinet. Instead they bided facir time, being in a position if anything went wrong, to expute a pincer assault on the Time Minister from diametricall copusitions. posite positions.

Meanwhile Monckton strayied to inform the American Ambassador, Winthrop Aldrich, the considered the forthcoming war would be a "great blunder" This hint to the Americans as to that was afoot was clearly an at of utter treachery to his own Time Minister.

Eden's troubles with his colleagues came to a head, on November 6 1956, by which late British troops had already cupied a part of the Canal ane. Harold Macmillan, the Chare flor fithe Exchequer whose aller of the Exchequer, whose e bellicosity had been, in Brad words, "beyond descript suddenly demanded a cea because of speculation as

sterling.

serious proportions when he joined in the clamour for a step produced a plan for, in effect, that was bound to leave Eden's secretly inciting Israel to attack venture patently in ruins. Facing venture patently in ruins. Facing simultaneous pressure President Eisenhower probably had no alternative but

Nor did Eden's troubles end with the ceasefire. For in the ensuing weeks Eisenhower set out to humiliate him. The President did not lack friends in the British Cabinet. Ambassador Aldrich later recorded in a note,

now preserved at Princeton

the President just went off the deep end. He wouldn't have anything further to do with Eden at all. He wouldn't even communicate with him . . The problem was solved in a manner which never has been made public even now, although perhaps some people suspected it at the time . . . Salisbury and Rab Butler and Harold Macmil-Rab Butler and Harold Macmillan were willing to discuss with me the situation which had arisen between the United States and Great Britain and I became the channel of communication between them and Washington. The meetings were confidential because it became necessary to by-pass the Prime Minister and Foreign Secretary.

Eden duly resigned early in 1957, ostensibly on grounds of ill-health. He thus had ample justification for making the comment with which this article opens. Colleagues even more than the Opposition were deserving of his strictures. Mrs Thatcher may need both luck and a cool head if she is to avoid history's repeating itself.

David Carlton is the author of Anthony Eden: A Biography, published last year.

# Why Mitterrand is no Harold Wilson

As English and French politicians and academics meet in Edinburgh this weekend, R W Johnson measures the new Socialist government against the English Labour government of 1964.

ago there was an eerie similarity between the situ-ation in which his administration found itself and that of the Wilson Government in Britain in 1964. In both cases the left's long absence from power (13 years in the British case, 25 in the French) meant that there was an almost explosive weight of hope and expectation backed up behind the Government as it arrived, triumphantly and at last, in

The dangers of anti-climax in such a situation are not just psychological but political: in Britain we are still living today in the backwash of the disastrous disappoint-ment of the 1964-70 Government, as the fragments of a zeneration wars over its broken hopes.

Mitterrand, like Wilson, had many political debts to pay off. To head his Government he appointed Pierre Maurov. very much a French lim Callaghan: avuncular, reassuring, and lacking in cither financial judgment or technical expertise. The Socialists' young Turk, Jean-Pierre Chevenement, got the Ministry of Technology, just as Tony Benn had in 1964.

The President's most serious long-term rival, Michel Rocard, was isolated in a relatively minor minis-try, just as his British equivalent, Roy Jenkins, had been under Wilson. Like the 1964 Labour Government, the

administration bursting not only with talent but with opinionated and inexperienced men and women who talked too much and quarrelied too openly.

Above all, Mitterrand's administration, like Wilson's, was faced by the immediate challenge of an over-valued currency under acute press-

Mitterrand faced this challenge with a grit and determination that Wilson never showed. Despite the visible unhappiness of his finance minister, Delors, he fulfilled his pledge to take communists into the Government. The currency was held over the summer until a wellmanaged devaluation could be staged in the autumn. The television networks were purged of their Giscardian toadies. The minimum wage, ensions and social security benefits were all increased.

When the Minister of prevaricated over dismantling France's authoritarian edifice of national security laws, he was promptly fired and replaced with the country's leading civil rights lawyer. The nationalization of a whole third of French industry and all the banks was rammed through despite fierce parliamentary judicial obstruction

The shock was considerable. Partly, the French were simply dazed at the extent of the peaceful revolution for which they had voted; partly, A year on, the Government

is clearly in trouble. Mitter-

The fact that the French

record on growth and em-ployment is so much better than either Thatcher's or Reagan's will not of itself be enough if unemployment goes on rising. Before long Act One must end, probably a major Government resbuffle. After that Mitterrand will have to shoulder his share of the blame, too.

To date, though, it has been an astonishing performance. Mitterrand is still not seen as a partisan socialist, but more as a determined and principled republican whose incidentally includes the socialist programme. The fact that he is grandly unconcerned about re-election (he will be too old anyway for that) helps strengthen his image of Gaullian hauteur. He is determined, rather, to stamp his mark indelibly on France for generations to come. His Government's "state of grace" is over, but his own endures. It would still take a bold man to say that Mitterrand will not add his name to the pantheon of Gambetta,

Graham Sutherland's pictures for almost 20 years, Roger Berthoud, describes the problems of his search

Few relationships can be more taxing than that between a biographer and his subject, be the latter alive or dead. At the height of my involvement with Graham Sutherland, it became almost phsessional: I thought of little other than him and his work, dreamed about them, and kept coming across Sutherlandish trees and objects on my daily walks across Hampstead Heath.

My mouth watered as I pored over some of the more memorable meals be had eaten on the French Riviera, carefully noted in the engagement diaries which his vidow Kathleen had lent me l pulled my hair in exasper ated affection at another example of his capacity to be his own worst enemy. With his name so often on my lips, he seemed to become part of our household.

Only occasionally was I really put off by his behaviour: to write the biography of a subject one grows to dislike must be a distressing experience, given the inten-sity of the involvement. How my relationship with the man himself would have evolved had he not died halfway through my researches is a matter for conjecture.

Some of the marginalia of our first encounter may give a flavour of the man. It was in 1961, at his home in Trottiscliffe, Kent. I was working on the Londoner's Diary of the Evening Standard, and this was to be my first feature-length interview. The occasion was the imminent publication by Lund, Humphries of what remains the most penetrating study of his work, by his redoubtable friend and protagonist of those years, Douglas Cooper.

Perhaps, given my inexperience, it was a slightly tense occasion. How else indeed to explain why Kathquently discovered, to our amusement - in her diary that day: "Evening Standard reporter R. Bertoul (sic). V. hostile and unpleasant". As for the following day, it bore the entry: "Filthy article by Bowness" (in *The Observer*). Yet there, 20 years later, was Berthoud writing the authorized biography and Alan or of the Tate Gallery, over the largest retrospective exhibition of Graham's work.

whelmed rather by the Sutherland charm, to which relatively few people -mainly woman - were im-

Typically, and no doubt for a variety of reasons, he sent me a telegram of congratulation when my flattering article appeared. Henry Moore, I recall, was noticeably cool about it when I bumped into him at the cheese counter of Holiand & Barretts shortly afterwards in Bishop's Stortford.

I met Sutherland occasion ally thereafter, once at Willie Maugham's Villa Mauresque at Cap Ferrat (or Cap Ferret, as the first proof of my book nicely had it), and sometimes had to relephone him: his patron and friend Lord Beaverbrook, the Evening Standard's proprietor, liked him to be well covered.

Kathleen, the beautiful Cerberus, was not always easy to get past. Then, after a six-year spell as a Times foreign correspondent, I interviewed him again in the summer of 1978, in the Pembrokeshire whose power. to inspire him he had rediscovered in 1967.

things in life how little Roger has changed", I remembered may treasured — him saying to Kathleen shortly after he had, with typical courtesy, met me in his overpowered Jaguar at Haverfordwest railway sta-tion. He alas, increasingly handsome up to the age of 60, had aged somewhat, and needed a stick to support an

At some stage of a longish day together, I commented on the apparent lack of a hiography on him. True, he replied (yet odd, his voice implied). I recalled the implicit encouragement when the prolonged suspension of

With typical initial enthusiasm, he readily agreed to be my first biographical subject; and we discussed "your project" as he tactfully called over lunch at the Connaught Hotel, by then his habitual London resting

This is the life, I thought, toying with a coulibiac de saumon, and envisaging per-haps 24 hours of taped interviews with him, topped up with a few dozen with his closer friends and associates. Conversation with him was always a delight: he took a keen interest in public affairs, kept in touch with the art world, had a quick, often feline wit, and a flattering capacity to listen and pounce on a good idea, thus combining good manners and intelli-

He warned me that he tended to be overcommitted and must give priority to his work. But all seemed to start well. He gave me a short list of friends I might usefully talk to. Yet when I went to Vales again in the summer of 1979 for our first full working encounter (he went main home above Menton. near France's Italian border). his mood seemed clouded. He was, he eventually admitted book. Impressionable as ever, he had been nobbled by a friend I had interviewed, who had passed on some of my questions. He was worried by their trend, and it took many reassurances about my seriousness before the sun of his charm shone again. Later he showed me one of his favourite estuaries, and then we settled down in his hotel in Milford Haven for a talk. I produced my Japanese

finally removed the last do good sherthand?" he excuse for not confronting asked wistfully, and I felt undermined again. Yet he author. his somewhat anhappy childhood, hitherto an unknown part of his life and doubtless the key to his seminal

insecurities. ?
He was thoroughly friendly, if initially a bit nervous, when we met a few weeks later in Kent for another interview; and a session at the Connaught that autumn went just about ideally, even if he missed a quip of which I was proud. He had observed that his pre-marriage conver-sion to Roman Catholicism not at the hands of Jesuits, though he had known plenty — they could, he observed wryly, persuade one that black was white. "Rather unnerving for a painter", I commented, but

he seemed not to hear. When he was back in Menton, we exchanged long question-and-answer letters; and I looked forward to a visit there in the spring. But he was thing increasingly quickly, and losing too much weight. It seemed to be a liver problem. In early February 1980 he was taken from Wales to the Royal Free Hospital in Hampstead, just down the road from my home. So near, yet so far: he saw only Kathleen and a handful of intimates. It was horrible to think of him suffering there, but cancer did its work swiftly, and ten days later he was dead. Strong men, including his dealer, wept at his passing, for he inspired a rare amount

of affection.

gone — we had got systemati-cally only to his early manhood — my researches took on a different character. It was during the writing and rewriting that my sense of living with him became most intense, and I was amazed how much became clear when seemingly unre-lated products of my research were put together. Far from being thrilled or relieved when I delivered on schedule, I felt rather bereft, like a parent who has handed over a loyable but difficult child to foster parents who may not appreciate it. But, happily, my publishers seemed genuinely delighted, and I like to feel that even the perfectionist Sutherland would have smiled on the design, at least, of the final

would probably to able to siderable difficulties in determining which of them should parliamentary party.

What must maker rather more for Dr Ower is that he has won plaudits an all sides either of the parties in it has for his performance during and the personal trained by the falklands of its. As the SDP spokesman he has displayed the gasp of a former Foreign Secretary and the personal trainers to measure up to gase events. and the personal rimness to measure up to grave events.

Perhaps the comparison that is widely in e with Mr. Jenkins's semi-stence may be unfair. Mr Jenkins is not the party's foreign affairs, spokesman in Farliament, and he may have udged that it would be intelicate to appear to be childenging Dr. Owen for the limelight. But this is not a entirely satisfying explanation. The delicacy of profecol should sansrying explanation. The delicacy of project of should not be the first densideration for a political lader in a crisis, and when Mr Jenkins has spoken he has been less impressive than is ual.

Dr Owen has grown in stature, not only absolutely but in relation to the falk-in the course of the Falkclands trauma. 📆

Even so, many of his own supporters do not believe that Dr Owen has a serious chance of winning the leader-ship. Before the Falklands crisis it was generally assumed that he would win fewer votes than Mrs. Williams would be able to wittams would be to secure among the mass membership, and that may still be true. His stock has risen, but he remains the outsider. Why then is he bothering to stand?

The feeling that the party expects a leadership contest, and that it will benefit from the excitement engendered by the struggle is genuine. But it is not the only, or even the principal reason why Dr Owen will be entering the lists. More impertant is the belief that he stands for a different conseption of

#### ONE MORE YEAR

Negotiations on reducing Britain's payment to the European Community have been going so badly that the Government probably has no option but to try to negotiate for a one year holding arrangement with a promise to try again next year. If the figures are right such an arrangement could be good for Britain but it will be bad for the Community. It will mean that the whole messy wrangle will start again in 1983, just in time to get embroiled in the next general election. Constant argument over who should pay the bill is no way to make the Community a force for

progress.

Britain has been looking for a relatively long term agreement on the Budget question with guarantees of extra payments if things go wrong. The other Community countries have been offering a shorter period (three years instead of five) with a fixed scale of payments. They have also been offering less money than Britain wants, so that this year the United Kingdom would make a net conti-bution of around £500m. This, is not good enough, even as a

to grounds of g

Part of the state of the state

10 to 10 to

temporary agreement. There is no reason why Britain, one of the poorest Community countries, should be the biggest payer. If the government agrees to an unfair arrangement this year it will rule out any chance of doing better in later years. That is not acceptable, and the other members of the EEC should show they recognise this fact by increasing the size of their offer. If they do not do so, the government would have no choice but to press on with its demands at the cost of great disruption to the Community.

That cost could be very great. Britain has been delay-mg agreement on a new round of farm price increases in an attempt to put pressure on other Community coun-nies to increase their offer on our Budget contribution.
That tactic shows little sign of having been successful, but it has caused great problems for the Community as a whole. It is in everyone's interest to come up with a settlement which allows the problem to be solved.

The natural government preoccupation with the crisis over the Falklands means that now is a bad time for the UK to try to come up with proposals which deal with the Community's long-term budgetary problem. But that problem has to be solved.

The present system has two main defects. The first is that too high a proportion of Community revenue is raised through levies on imports of food. This is bound to put a country such as Britain, which is not self-supporting, at a disadvantage. Although the United Kingdom has switched its sources of supply to some extent it is still bound to be a significant net

importer from the rest of the world, which means that its gross contribution to the Community's funds will be large. The second defect in the current system is that the Community spends too much money on agriculture and not enough on other things. This imbalance in spending hits Britain hardest because we have a smaller farming popu-lation; but it is a problem for the Community as a whole, which has long been recognized as such.

Recognizing a problem is that a new agreed not the same thing as solving negotiated next year.

it and the Community's efforts so far have been less than half-hearted. This year's with farm price settlement, increases of more than 10 per cent will make matters worse. The Community needs to carry out a thoroughgoing reform of its activities and financing going far beyond the specific problem of Britain's contribution.

The question which the Government has had to face is whether this is the time when long term reform can be carried through. Most of the factors point against it. The United Kingdom needs the support of its European partners over the Falklands affair. Although they are unlikely to desert us simply because of a disagreement over farm prices, a major row over European finance now would weaken the unity which has been achieved.

Nor do the circumstances within the Community suggest that long-term reform is ripe. Little progress has been made on reforming the structure of Community spending. There is, as yet, no consensus that the system of finance should contain what amounts to a safety net to prevent a country such as Britain facing unexpected increases in its bills from the Community.

The United Kingdom would thus be right to agree on a one-year arrangement, accept agreement on farm price increases (though reluctantly) and work constructively to reach a better solution next year. The two conditions which the Government should insist on being met are that this year's rebate be more than the £450m offered and that a new agreement be

#### PANORAMA'S BLIND SPOT

When the presenter of a television programme joins the attack upon it, it is evident that this is not a simple battle between broadcasters and politicians. It is important that this should be appreciated, because otherwise those who were unhappy at last Monday's Panorama might conclude that this justified the more general hue and cry over the BBC's coverage of the crisis. In his courageous letter, which was published on this page yester-day, Mr Robert Kee made it clear that he was criticising the minority view was heard on it — he expressly approved -of that — nor because it gave-offence to politicians, but because he believed it had failings in broadcasting

terms. The purpose of the programme — as explained by its editor, Mr George Carey, in another letter — was to examine the minority view and the reasoning behind it. So four backbenchers, two Tories and two Labour, all of them critical of Government policy, were interviewed; as was the chairman of the Conservative Party, Mr Cecil Parkinson, whose conver-sation with Mr Kee concluded the programme.

It is a familiar television. technique to build up in the first part of a programme a case which the principal interviewee is then invited to answer. This did not work on this occasion for two reasons. Most of the specific assertions of the critics were not subjected to sufficient scrutiny; and the juxta-position of these sharply

contrasting views was liable sharply conflicting opinions to give the casual viewer a balance of parliamentary opinion.

It is true that it was stated that the critics were a minority. But the impact on the viewer who is not well informed on the range of parliamentary opinion has to be considered. He could well conclude as he saw one backbencher after another, from different parties, put-ting the case against the Government - with no backbencher setting out the other the programme not because point of view - that ministers the face of a generally sceptical, if not openly hostile, House of Commons.

> It is evident that a good many people felt that this was the message conveyed by the programme. This was not what the programme-makers themselves intended. It was not what the programme actually said. But, as every-one knows, the general impression created by a television programme is critical. The objection to it in this instance is not that it affronted the politicians, but that it was misleading; and to be misleading in this way at such a time was bound to cause much offence.

The impression could have been avoided by including a mainstream Conservative backbencher and a Labour supporter of his own front bench, as well as the dissi-dents. The effect would have been to blur the sweet simplicity of the contrast between Mr Parkinson and the critics. But it is one of the fallacies of television that pressure and persecution.

have to be the staple diet of current affairs: Too often that underestimates the seriousness of the audience for such programmes even in normal times. But these are not normal times. The graver the crisis, the less the public meeds to have its interest exports in the European Commneeds to have its interest stimulated, and the more necessary it is to portray the full scene as accurately as possible.

To express these criticisms is not, however, to join in the chorus of hysterical com-plaint against the programmemakers. They have not been anti-British or treacherous. They have simply produced a programme to which certain objections have been made, which should be coolly examined by the BBC without any corporate defensiveness. The more the BBC is prepared to take criticism of an individual programme on its merits, the more readily will it be accepted that whatever the failings of this particular edition of Panorama they do not justify the more sweeping accu-sations against the Corpor-ation's general coverage of the Falklands dispute.

The BBC has an obligation to inform its audience in this country and overseas of all the facts, comforting and dismaying, and of all shades of opinion, supportive and dissenting. It has in general performed that duty well and politicians in an over-excited frame of mind will do the country disservice if they allow a justifiable indignation over a particular episode to lead them into a campaign of

#### **GOURMETS OF ENGLAND UNITE**

The British have an unde-served reputation for disgusting food. Our national cuisine has had a bad press, from Alfred's invention of Gâteau Athelney Flambe to Samuel lohnson's recipe for salad, "a cucumber should be well sliced, and dressed with pep-per and vinegar, and then thrown out as good for nothing"; and from our lumps French to nick-name us les poudings to our alleged gulosity for chips with every-Anybody who minds his belly at all is nervously aware that the land is rich with regional delicacies: the jellied eels and mushy peas of the East End; the tripe and onions of the North-West; the potted heid, the haggis and bashed neeps bacon and well greased egg.
Anybody who minds what he eats will have noted, with a shudder, the recent British fad for health-food shops, wholemeal cooking, Royal lally and other delicious descriptions of tatty resentative sample of a nation ing the social survey, our largest firm of freezers of food. It may be we are meant to mark by our answers to guestionnaires God's scorn for all polls and surveys. It may be beer is best. But we children and other delicious children and o

The reputation of British food has now been vindicated in a more systematic way than personal observation of the kitchens and dining-rooms of the land. Gallup this week published a social survey of the values that Britons cherish above all others, a kind of vox pop barometer of the best of British value judgments. A carefully selected sample of of sweet suet that inspired the the population, stratified by sex, age, income, and cholesterol intake, was invited to answer a great many impertithing. It is quite unfair nent questions about what it valued most and how happy it was. The main findings were unsurprising and encourag-ing. Top of the league table of our values come health and family life; bottom by miles come politics and religion. But food and drink are rated of Scotland; the traditional surprisingly highly by a rep-Jelly, and other delicious sluicing as very important, are the gourmets of England; sacraments that go with the and 39 per cent as quite and at last we have spoken religion of jogging.

were valued more than sex. success, and sport. Savings. entertainment, even holidays matter far less to Britons than what they get up to at the table. Only 8 per cent of them rated politics as very important. Contrary to our John Bull image, we are a nation of closet gastronomes and oenophiles.

The social survey records that more than half the homes in Britain now have freezers; that Britain is third in the international table of frozen food consumption; and that. estimating just on the price of raw ingredients, home-made cakes are more expensive than the frozen equivalents.
Eat your heart out, King
Alfred. These last findings
were particularly gratifying to the company commissioning the social survey, our

# LETTERS TO THE EDITOR

#### Standing firm on the EEC Budget

From Mr Robert Jackson, MEP for Upper Thames (Conservative) Sir, A malign coincidence has brought together internal and external crisis in the European Community, both affecting Britain. Over this weekend we are seeking to renew the Com-munity's sanctions against Argentina at precisely the same moment as we are asking for very substantial budgetary payments from the Community, and blocking the adoption of the European farm price package. farm price package.

In this conjuncture there are

many voices arguing that the Government should relent on our claims with regard to the Community Budget. Their arguments should be resisted.

As M Cheysson's remarks show, the Community's governments.

ments are not so crass as to make a link between the two sets of issues. If they were to do so, I for one would doubt the value of support accorded on such a basis, given that its principal purpose must be to impress Argentina
with the intensity of international
feeling against her.
The issues at stake in the

dispute about Britain's net contribution to the Community Budget are of fundamental importance. The amounts of money involved should not be under-estimated, a potential net payment every year which, if uncorrected, could be of the same order as Britain's total aid to the Third World, or even greater.

But even more significant are the principles which Britain is trying to establish in the Community Budget — that the pattern of net payments through the Community Budget should bear some relation to capacity to pay, and that the overall structure of Community policies should re-flect a balance of advantage for all member states.

Neither of these principles is yet embodied in the Community Budget. Both of them are not only important British interests: they also embody the highest interests of the Community. This is why the British Government must stand firm on this front, as on others.

Yours, etc. ROBERT JACKSON, 4 Churton Place, SW1. May 13.

From Mr Derek Prag, MEP for Hertfordshire (Conservative) Sir, Really, only one thing needs to be said about Mr Simmerson's

letter (April 30) criticizing some-what colourfully my views on the European Community's solidarity with us in the Falklands dispute: unity support measures. There is. Then, to illustrate what our partners can continue to export to Argentina, he picks out the

very item, arms, on the export of which the BEC immediately imposed a total ban. How unfortunate for Mr Simmerson, too, that he didn't have a chance of reading beforehand your leader entitled "Time to be nice to Europe" (published appropriately on the same page as his letter), in which you talk of the Community's "prompt and

unanimous show of solidarity" the "almost miraculous" speed with which it reacted, and the need, "in our calculation of British interests, to assign a substantial and positive value to the promotion of harmony and cooperation within the European

Community".

It was also bad luck for him that he didn't wait for today's Times (May 1), in which Nicholas Ashford writes: "The American measures fall well short of the trade and economic sanctions adopted by Britain's partners in the European Community". the European Community". It would have been difficult indeed for Mr Simmerson to have

been more wrong, and unfortunate, then he was. But then, when it comes to Europe, I'm afraid he's addled, quite. Yours faithfully, DEREK PRAG,

The Euro-centre, Maynard House, The Common, Harfield, Herts. May 1.

#### The jury system From Mr T. R. M. Sumon

Sir, Last year I sat on a jury at sit, Last year t sat the a jury at the Inner London Crown Court, and we were told by the Usher that if we had any questions, to submit them as a note to the Judge, through him. I did so in a theft case and, as a direct result, the Judge asked the prosecution for further evidence. This turned out to destroy their case and out to destroy their case and turned a probable conviction into a certain aquittal.

I suggest that an explanation of how to ask questions should be a standard part of jury briefing in the future. Yours sincerely.

T. R. M. SIMON, 94, Manchuria Road, SW11.

#### Woman on patrol

From Mr Brendan Halpin From Mr Brendan Halpin

Sir, A' 19-year-old woman police constable has been injured in an attack by thugs. This brave young lady had been given the "equal opportunity" now granted to her sex to go on solitary foot patrols in the depths of the night in a not always law-abiding city.

I am sure that I am not alone in being shocked at this. We must be the only mammalian species to use its females to preserve the use its females to preserve the communal peace. The present policy shames us all. Yours faithfully, BRENDAN HALPIN, 11 Park Street, Oxfordshire.

## Keeping an eye on Falklands reporting

From Dr Timothy Hollins Sir, Your correspondents on the

Sir, Your correspondents on the broadcast coverage of the Falk-lands crisis (May 13) have raised a number of interesting points. Sir Angus Maude criticizes BBC interviewers, with some justice, for asking exclusively negative questions of the "But isn't this likely to alienate ..." variety. Does this not itself indicate that the preponderance of those interviewed are supporters of the line which the Government has interviewed the covernment has interviewed the c

The BBC is clearly in a quandary. It demonstrates support for the majority view by giving greater air-time to adherents of the present policy than to dissidents. Yet at the by the paramount position it accords to "right" and "truth" to question all such statements. That the corporation spends much time discussing and same time it feels morally bound That the corporation spends much time discussing and questioning Government decisions and actions is thus, paradoxically, proof of its general acceptance of the line the Government has taken.

This process stack on the BBC

This present attack on the BBC This present attack on the BBC by those who genuinely feel that it is failing to act in the national interest only reinforces the need for an "off-air" broadcasting video-archive where material which is subject to criticism can be objectively analyzed. It is appalling that whilst all printed publications are deposited in copyright libraries, the broadcast material which informs our democracy and dominates our culture is very largely lost. culture is very largely lost.

This is particularly true of news and current affairs programmes where often neither a transcript of a spontaneous interview nor a recording of a live programme is kept by the broadcasting organization con-cerned. Whilst welcoming S. L. Blackmore's call for an open-access monitoring unit, therefore, I would suggest that a full-scale off-air broadcasting video archive is even more desirable, as well as being both technically and economically feasible. It should be established

without delay.
Finally Mr John Stokes
describes broadcasting as "in
essence only a branch of 'show
business'". Lord Reith's original
conception was of broadcasting as "the nervous system of the body politic" and "an integrator for democracy". Have we advanced so far as to believe that these ideals are incapable of realization? I venture to hope

Yours faithfully, T. J. HOLLINS, 9 St Margaret's Road, Oxford.

From Mr Anthony Chinneck

Sir, As someone who until retirement at the end of 1976 had spent four years as Deputy Chief of Public Relations at the Ministry of Defence, may I, through your columns, entreat ministers, members of Parliament and journalists to stop the present outbreek of mutual present outbreak of mutual recrimination over the reporting of events in the South Atlantic It is inevitable that ministers.

because they are so close to events and have responsibility for action, will at times resent the way those events are reported. It is also inevitable that journalists will not always be convinced that ministers, through their various channels of communication, are giving the full story and will seek out other sources of information. These are basic facts of life and are healthy in our free society, even though they must also be a potential source of friction between the two parties.

Therefore unless the Goven-

ment decides to take full war-time powers over the control of information, which presumably it has no intention of doing, ministers must be prepared to accept occasional reporting which is not to their teste. Equally, journalists must be very careful not to damage this country's interests by careless selection of news or clumsy phrasing, while retaining their freedom to comment and criticise. But above all both parties must recognise that the national need is for a unity of purpose to which each must devote a considerable effort. I remain, Sir, your obedient

servant, ANTHONY CHINNECK, 13 Winchelses Road, South Croydon, Surrey.

#### The Baptist view

day" programme Church leaders were taken to task for their 'deafening silence". On Monday your correspondent, Clifford Longley, argued that statements made last week by the Baptist Union Assembly and the British Council of Churches would have been better left unsaid because we lacked the political com-petence to make them. Then on Tuesday you featured Ted Harri-son's 'Onward whose Christian soldiers?" repeating the arguments that Christian leaders must debate and question the moral issues and not be afraid to be heard on "the undiluted Gospel message".

It is true that we do not have inside knowledge of events; they change so rapidly that within an hour of my writing they may be considerably different. What I would wish to emphasize is that

The concept of two nations slugging it out against one another is a dangerous and expensive anachronism. It is an anachronism because it smacks of nationalism and we live in a May 4.

# From Sir Charles Mott-Radelyffe

Sir, it seems unlikely that the Intelligence Branch of the Argentinian Ministry of Defence has been unduly overworked at this time of crisis. The British media has bindly provided than with has kindly provided than with has kindly provided than with information on a scale which seems little short of hair-raising to those of us of riper years who served in World War II. The fact that there has been no formal declaration of war in no way diminishes the risks to the lives of those some resident was the risks. of those serving with the task

force.
The Argentinians have been told the size and composition of the force what its capabilithe task force; what its capabilities are and are not; the options open to the force commander; the fact that the sad loss of two Harriers reduced the number available to 17 (if I remember open the same than the same correctly) until they can be replaced by 20 now on their way, and the estimated time of arrival with the squadron. This sounds much more like the media's assessment of the chances of retaining or losing the Ashes in a Test series between England and Australia than of hostilities when lives are at risk

Mr Peter Snow, of the BBC TV Centre, tells us (May 8) he hopes that "most members of the British public would be as concerned as we would if we were expected to cease this constant questioning (of 'those who have power to direct events'!
particularly at a time when so
many lives are at stake".

Of course the British public
have a right to know what is

going on, but the element of security must surely be taken into account. The information hitherto so readily available through the media and read and heard by the Argentinians can hardly be said to have reduced the casualty risk to our service-men in the South Atlantic. Yours faithfully, CHARLES MOTT-RADCLYFFE,

Barningham Hall, Matlaske, Norwich.

May 10.

From Lord Jenkins of Putney Sir, Shaken by cries of "treachery" in the Commons I asked to see a videotape of the cause of the uproar.

I made notes as I saw it and, while I claim no scientific accuracy, my estimate was that about four sevenths of the programme was pro-Government; rather more than two sevenths showed reasonable doubt or criticism of one sort or another; and in less than one seventh something of the Argentine case was heard. As a whole it was. much more effective pro-Govern-ment propagands than if it had been completely uncritical. If the Prime Minister, her less percep-tive backbenchers and their heated correspondents were allowed to have their way they could not long enjoy their present widesoread support on the issue. The BBC knows its

business best.

But even if it is true that the general effect of the programma yours faithfully, was cooling, is not the BBC BERNARD WHELAN seeking to deflate the balloon of jingoism before geographical reality does it much more painfully?

Yours faithfully, HUGH JENKINS, House of Lords,

From Mr E. W. L. Burlow

Sir, There has been considerable discussion in your columns of late about the morality of war and, in the most recent, with the South Atlantic crisis in mind, you have called upon St Augustine's teaching on the just war.

A point which strikes me is that all those presently on their way to the Falkland Islands are professional fighting men paid to go anywhere at any time on our behalf and irrespective of the moral case for doing so. What does St Augustine have to say to them? Very little, I would have thought, for there is no way in which any of them could be given a guarantee that every operation in which he might become involved throughout his service life could satisfy St Augustine's requirements for a just war. Rather; it would seem that no Christian basis exists for hearing arms professionally. Is this really so?

nations' control and may not stop

short of a nuclear holocaust. It is expensive because many human lives are at risk and too many

have alreasy been lost.
The seeds of future strife are

being sown; this could produce a highly volatile situation in which a nationalist solution has to be

maintained from a distance for

many years to come.

It was for such reasons that

Yours sincerely. .

Britain and Ireland,

Baptist Church House,

BERNARD GREEN,

4 Southampton Row, WC1

Yours faithfully, E. W. L. BARLOW, 26 Petersham House, Harrington Road, SW7.

#### From Mr Bernard Green

Sir, It appears that on the Falklands issue the Churches cannot win. In the BBC "Sun-

One thing is crystal clear, God loves both nations and desires peace between them. If we claim to be Christians, we must work and pray with others, for a solution as near as possible to the goal for which Jesus taught us to pray, "Thy will be done on earth". even at this late stage every attempt should be made to achieve a solution by non-violent means. General Secretary, The Baptist Union of Great

#### and contraception From Mr Keith C. Clarke

Sir, Monsignor Leonard's letter on "Following the Pope on contraception" (May 8) is deeply touching. We learn that Cardinal Hume joins with the Pope in wanting "better arguments" to underpin the assertions in Humanae Vitae — assertions modestly described in the encylcical itself as axiomatic. I wish them well. But they are on dangerous ground.

Catholic Church

If these novel arguments manage to repair the shattered credibility of the Catholic Church's traditional moral stand on many matters affecting the family, it will truly be a triumph for the working of the Holy Spirit. But if they simply turn out to be a rehash of the tautological apologetics of old, such efforts will be rewarded by an exodus from the Catholic Church even more dramatic than that experienced since 1968.

My own memory may be longer than that of Monsiener Leonard

than that of Monsignor Leonard or, alternatively, my perspectives different. Thirty years ago in the North of England priests often preached to "family congregations" about the evils of contraception, and tawdry little Catholic Truth Society pamphlets upon this and related topics festponed into about account festooned just about every church bookstall.

As to the forthcoming papal visit, it might be more honest to say that some members of the Catholic community await it with not a little trepidation. What will the good man say? Maybe that the principles enshrined in Humanae Vitae are self-evident truths? If he does, it could chance that this ostensibly fetuous document will finally, and tragically, prove itself to have been "prophetic" in a sense entirely different from that understood and intended by

Cardinal Hume,
I express these sentiments with
a heavy heart: first, as a
professional lawyer engaged for
20 years in advising family
courts; secondly, as a barely
discernable member of the
Catholic community. Yours faithfully,

KEITH C. CLARKE, Clerk to the Magistrates, Southampton Magistrates' Court, 51-59 Commercial Road, Southampton.

From Mr B. J. Whelan

Sir, Commenting on Monsignor Leonard's letter (May 8), Mr Robert Nowell's letter which you publish today (May 12) pleads for a little bit of honesty in the Church on the matter of the

morality of contraception.

Did we not get some from Monsignor Leonard himself? His acknowledgment that the Pope, as well as Cardinal Hume, wants "better arguments" to underpin the teaching of Humanae Vitae is the nearest I have seen the Hierarchy come to admitting that the existing arguments are not

Gorse Close Farnham, Surrey. May 12.

#### Sharing lending right From Mr Peter Owen

Sir, Lord Willis's letter (May 1) fails to take into consideration that the Publishers' Association has been closely involved in negotiations with successive governments throughout the campaign.

The Society of Authors originally admitted that any revenue from library borrowings was part of publishers' volume rights, and a division of proceeds was fixed at 25 per cent to publishers and 75 per cent to authors. Under pressure from the militant authors running the unofficial alternative association, the eventually renounced this agree

If authors were able to be their own publishers they could not hesitate; however they realize that a publisher's investment of expertise and capital is essential a book is to be successfully published and distributed.

When a library buys one or two books from a publisher, each copy may be read by as many as 50 people, with resultant loss of sales to both publishers and elobal village. It is dangerous because it could so easily lead to an escalation of war beyond both

authors. At this time, when publishers are realing, and are having to turn down many novels, some of them quality books, surely it is in the interests of authors to have more secure and adventurous publishers and not attempt to

defraud them of what is part of their inalienable right? A book is a partnership between author and publisher without which there would be nothing for library readers to borrow.

Yours faithfully, PETER OWEN, Peter Owen Ltd. Publishers, 73 Kenway Road, SW5. May 1.

#### Out of site

It was for such reasons that Baptists in their Assembly last week stressed the necessity of an international solution through the United Nations, urging our Government to avoid escalation of the conflict by all possible means. Is it too much to ask that Britain should have the courage to give a moral lead to the world? One thing is crystal clear, God loves both nations and desires From Mr Timothy J. M. Gray Sir, Your diarist in The Times of Monday, 10th May, 1982, in announcing the conversion of 62 Rodney Street, the birthplace of Mr Gladstone, remarks that this distinguished residence has stood

empty recently.

Now I'm wondering where I've
been these last two and a half vears. Yours invisibly, TIMOTHY J. M. GRAY, 62, Rodney Street, Liverpool May 12.

# Men who build for eternity

If the Pope's visit to Britain this month takes place he will see two of the notable buildings of the twentieth century. Though very different from one another, the two Cathedrals at Liverpool are immensely impressive both in design and workmanship. What may not be so obvious to a visitor is that one is built above a crypt whose basic material is stone and which is sunk, as it were, in natural rock; the other is

Sir Edwin Lutyens, who vas commissioned by the was commissioned by the Roman Catholics; envisaged a cathedral second only to St Peter's in Rome and it was to be built of stone. The island of Gozo, off Malta possessed stone of an unusually fine quality and from its quarry blocks were shipmed over to

#### IDA fund shortfall reduced

From Peter Norman Helsinki, May 14

Mr A. W. "Tom" Clausen, the president of the World Bank, today claimed some success in his campaign to plug the gaps in the Bank's concessional lending funds. These were created by the refusal of the United States to fulfil its commitments to the International Develop-ment Association (IDA), the

Bank's soft loan agency.

He told a press conference
after a meeting of the development committee of the International Monetary Fund that The Netherlands, Japan and Luxembourg had said they would pay propor-tionally more of their current commitments to the IDA than the United States.
He estimated that the shortfall in IDA contributions for the year, to the

end of June was now about The situation is not as

bleak as it was eight weeks ago", he said, although he added that "we are still not at the point we ought to be". Multilateral soft iden agen cles like the IDA are the sole source of external finance for the poorest nations, which cannot borrow on

which cannot borrow on financial markets.

The present crisis in the agency has been precipitated by the United States Congress which has cut the United States contribution on the grounds of budgetary restraint. This action, which reduces the IDA's capacity to finance projects, has serious impact because other donor countries can cut their The performance was better than many had expected and in the stock on the second half.

market, Grand Met shares

Sir Maxwell Joseph: banking American shortfall

Mr Clausen said he did not think that the IDA would get

Mr Clausen said he did not think that the IDA would get all the \$12,000m funding envisaged in the original commitments for the three years to 1983.

But he said: "We are goiong to push and pull and use all the arguments we can to make the donor countries realize the plight of the developing countries."

at 221p.

The dividend is increased with improved efficiency and competitive pricing policy, 10 per cent to 5p. Last year the group's total dividend tributed £32.5m, against £24.9m last time. There is a yesterday Sir Maxwell first time contribution of Joseph, chairman, reminded shareholders that the greater Hotels, purchased for £267m part of group trading profit is earned traditionally in the second half.

Grand Met will need that to 52.5m profit, up nearly 50 per cent, while the United a £140m interest charge on its debts. That would be up from £90m on the year to last to £42.2m. Grand Met says September, and double the £71m paid out in the opening half. He noted that some countries such as. Britain had already paid their contributions for the second year of the current replenishment in full and Norway had paid 25 per cent more than its commitment.

This week the Netherlands had agreed to pay its full amount for the second year, and Japan and Luxembourg have indicated that they will pay proportionally more than the United States.

Other financing arrangements have been suggested, including a proposal by the French for a special fund in which the United States would have no influence.

The uncertainty over the current replenishment is almost certain to delay a new replenishment fund. The final statement of the development committee said discussions should proceed so that the seventh replenish-ment can begin in the year to the end of June 1984. Although Mr Clausen admit-Although Mr. chausen aumitted that he was not optimistic that this would happen:

Mr Malcolm Baldrige,
Secretary of the United
States Commerce Department, said in Washington

yesterday that the rate of American innflation in 1982 as measured by the consumer as measured by the consider price index, may be 6.5 per cent or less. The Administ-ration's official forecast is of seven per cent. He told an American Petroleum Institute seminar.

that the Administration's success in lowering the inflation rate "is good news for minority businesses."

#### **Business Editor**

# Saturday mornings on the homes front

Barclays' bid for business by re-introducing Saturday opening must be welcome to most of its customers, at least those who, on the surveys, bitterly resented the ending of the weekend service. Whether it will really succeed in commercial terms, however, is likely to do not be surveyed. cial terms, however, is likely to depend on its home loan service during the extra hours of business. The banks' existing cus-

tomers long ago resigned themselves to inconvenient themselves to inconvenient opening hours and have made other arrangements to obtain cash over a weekend, whether it is from a bank cash machine or simply by writing cheques over a bar counter. It is unlikely that paying-in and cheque cashing facilities on their own will attract anything more than a trickle of new customers.

customers.
Lloyds, which has 11 branches opening on Saturday mornings (compared with Barclays' one), freely admit that in terms of attracting new customers, the experiment has so far proved a failure.

However, that is not the however, that is not the only reason for Saturday opening. What the public also wants is a quick, cheap and simple home loan facility. The inroads made by the banks into this area of the building societies' business have been drabusiness, have been dra-matic. It is from the building societies that Bar-clays' hopes to pick up new

The acid test for Barclays will be whether they can give potential homebuyers a sensible mortgage service with advice from experi-enced staff. If all that is available is a home loan application form then the customers will stay with the building societies.

#### **GUS** A question

Are the interests of the small shareholders once again being subsumed by the easy imperatives of the institutional shareholders in the case of the Great Universal Stores bid for

Empire Stores?

Details of how the bid was organised by blue-blooded stockbrokers Cazenove have still to emerge. But reports suggest a classic case in which the brokers telephoned around the major institutions in the hours before the bid was announced to suggest a price (in this case 113p a share). The prev was obviously in

a weak state. The insti-tutions were under some pressure. They accepted and Gussies were able to gain a strong foothold.

with this under the rules. But effectively it by-passed the jobbers and it never gave the market a chance to decide what was a realistic price (if the GUS bid is referred to the Monopolies Commisson, no-one would be surprised to see Sears step in with a bid of 150p). It's an old maxim that any asset is worth what others are prepared to pay for it.
In this case one can
question whether the institutions really tested the water to find the tempera-

#### Rights issues Shrinking list

Fears of a long queue of rights issues that could emerge once the Falklands crisis is over now seem to be diminishing. This is yet another factor that is keep-ing stock market sentiment firm. Grand Metropolitan's failure to make the rumoured rights issue with its figures yesterday, has become the latest in a string

of such non-events.
The stronger companies who were on that list seem who were on that list seem to be finding plenty of money in the markets or their banks.

Those who have not already had rights issues include a large number of weaker companies who need the cash but find their

market price too low to make one attractive. shares in the healthier companies have moved ahead, the market has polarised, leaving many engineering, property and industrial companies languishing with resultant high yields. The revival of worries that continuing high interest rates may dampen any consumer spending improvement, is making forecasts for 1982 earnings uncertain. So many rights issue candi-dates would have to offer prices at a deep discount to market levels, making the

operation very expensive. Against that background the rights issue list is shrinking as companies decide to impose their price earnings ratio, rather than risk dilution. The improvement in the balance sheet ment in the balance sheet ment in the balance sneet coming from the rights issue could be only tempor-ary, but the additional shares would be a permanant servicing burden.

Property companies are still expected to come to the market for more cash. However, the present large fund of institutional liquidity will probably be spared of this call until property prices improve. The level at which a rights issue is priced will be vastly improperty sales.

## **Bid for Woodrow Wyatt** points to a battle

By Drew Johnston

A battle for Woodrow Wyatt Holdings, the print group where receivers were called in on Thursday, became a distinct possibility yesterday.

London print broker Robert Hart Associates announced yesterday that it. was putting together an offer to head off any bid from Mr. Robert Maxwell's British Printing and Communications Corporation.

situation.

The consortium headed by hands.

company, is due to meet Wyatt directors on Monday. A spokesman for Robert Hart said yesterday that negotiations on the consortium had been going for some time before the receivership announcement, but so

sin announcement, but so far there had been no contact with union leaders at Wyatt while his representatives moved into the plant to assess the situation. with Wyatt. It is understood the aim of the bid is to stop the total printing capacity in the country becoming con-centrated in only a few

# The confessions of a worried leaseholder

I have just claimed £300 from an insurance company to which I was not sure I was strictly entitled. The reason I am not worried about making this potentially damaging confession is that the insurance. I told Commercial Union because this meant we had double insurance. That's had double insurance. That's had double insurance. That's had double insurance with General Accident, the freeholder's insurer. No doubt the negotiations have political by surance company concerned is quite happy with the situation, and I was totally unaware that I might be in

the wrong.

This latest episode in my This latest episode in my action-packed relations with the insurance industry (last autumn, the house caught at all clear whether they fire) highlights a very grey, autumn, the house caught fire) highlights a very grey, if not positively black, side of

covered at all.

Several years ago I bought
a modest seaside flat for my
mother. Under the terms of
the 99-year lease, the
freeholder arranged the insurance for the whole property and recouped the premium from the various
leaseholders. After a few
years no one bothered to ask
for the premiums. The propfor the premiums. The property changed hand several times in quick succession. No one knew who the owner was, let alone whether the

I was worried about the property and promptly in-sured the flat with Commercial Union so that I would be covered if; as seemed likely, it was uninsured.

building was insured.

Just after Christmas this year the pipes in my mother's house burst. Cascading water ruined her bedroom. As disasters go it could not have been better timed. I de-spatched a couple of the builders who were just finishing off my house to redecorate her bedroom and claimed from Commercial

A few weeks later I got a letter from an insurance broker asking for my share insurance policy taken out on the house by the freeholder

tiations have been enlived by the fact that the GA policy was taken out on the very day the pipe burst

Meanwhile what emerged was that although Commer-Insurers disagree on whether property insurance — the problems leaseholders have in making sure they are adequately covered, or even covered at all.

Second whether a mere leaseholder has an insurable interest in a property, even although the freeholder — in my case a whole succession of them may not have insured the property either.

One insurance man explained it to me: "The fact that you have a lease means you have a right to inhabit the flat for so many years. You don't own the bricks and morter and you may not have an insurable interest in them.

particularly if paying for can be reimbursed the value alternative accommodation. of the lease if the lat is still

It appears that there is no uninhabitable or faccessible easy answer. If you are two years after damage or responsible for the internal disaster. decorations or have made for whom at last we had a expensive internal improve-

ments such as new wooden floors, central hearing and the like, which sare not strictly part of the buildings. you can generally insure these without too much trouble.

So far as the building's

insurance is concerned, ask your solicitor (preserably at the time of purchase) to insist that the freeholder registers your interest in the property with the besurer. You can then deal directly with the insurance company and discover whether the property is adequately covered — or if the freeholder fails to spay the

premium.
For leaseholders who do what I did and make out a policy to be on the safe side, the worry must be whether the insurer would contest liability if there was a large claim. Most insucers turn a blind eve to the strict legalities where small claims are concerned are pay out. But would they be accommodating on a total loss of

them.

Whether an individual leaseholder does, or does not, have an insurable interest depends on what is in the lease. If several insurers and the BIA claim, that if the freeholder is responsible for the insurance then that is that. If he under-insures or fails to insure at all, your only recourse is to sue him for breach of covenant and damages.

The drawbacks of going to court are obvious. First a freeholder who has been irresponsible anough not to insure the property is unlikely to have the cash to compensate the leaseholders. In addition the leaseholder may not have the resources to bring a contested action—

The drawbacks of going to court are obvious. First a freeholder who has been irresponsible anough not to insure the property is unlikely to have the cash to compensate the leaseholders. In addition the leaseholder may not have the resources to bring a contested action—

The drawbacks of going to confirm the position of a concerned the issue is clear cut. They confirm the worried about the extent of cover taken out by the freeholder. But you're to your and are not sure whether you and are not sure whether you and are not sure to your and are not sure whether you and are not sure whether you and are not sure to your and are not sure whether you and are not sure to your and

# Betting on

MONEY TALK

# an unlikely scheme

It is doubtful whether dealing in racehorses is quite what the Chancellor had in mind when he introduced his business start-up scheme to encourage entrepreneurs. But this is the use it has been put to by investment adviser Julian Gibbs who is confident that investors will be able to claim full tax relief on investments of up to £30,000 in a horse-trading company.

Minimum investment is

£1,000 and top rate taxpayers could have a share in 12 horses at a net cost of only f250, says Mr Gibbs The scheme appears to be taking advantage of the £20,000 worth of income tax

relief granted to investors in new businesses. The original relief when the scheme was first introduced in the 1981 Finance Act was £10,000 per annum but was upped to £20,000 in the March Budget. Investors were also given the facility to carry forward unused relief from 1981-82 into 1982-83 — hence the maximum investment in Julian Gibbs new scheme of

What the Inland Revenue will think of Mr Gibbs' horse trading enterprise is difficult to judge but initial reaction is that it will not work. Investors are warned by Mr Gibbs that "this should be con-sidered as a speculative investment, but the odds are considerably shortened with the help of the taxman". This assumes that the taxman's help is forthcoming.

#### £1m on loan

Accountants, solicitors and other professionals have lined up over £1 million worth of loans through Barclays Bank's unsecured loan facility. The scheme is linked to self-employed pension contracts and presently some 26 insurance companies are approved by Barclays, Professionals can borrow from Barclay's up to 15 times their annual contribution to a self-employed pension plan, though the loan is not automatic or guaran-tecd. The loan is eventually repaid on retirement out of the converted pension benefits.

"We have made a positive decision to try and extend our lending to profes-sionals", says Barclays' David Rouse who master-minded the scheme. "Provisional returns from some 60 of our branches indicate that loans totalling £1 million have been agreed

Money borrowed has to be used for business purposes — usually the purchase or extension of business premises, or the purchase of a stake in a partnership. In the initial stages the loan is likely to prove better business for the life offices associated with Barclays. An unsecured loan facility is a useful marketing ploy when selling pension policies to the self-employed. The preferential interest rate is the other attraction — only 2 per cent. over Barclays' hase rate. Minimum premium which qualifies for the facility is £3,000 per annum.

#### A change of heart

Getting caught by the inland Revenue is not the only risk you run if you are a tax-evader. The Government's freezing of assets of Argentinian residents has presented some of the London banks with a ticklish problem. It appears that some customers who had claimed Argentinian residence — presumably because as non-residents, the interest on their accounts would not be declared to the Inland Revenue — are now revealing (or claiming) that hey were not really resident in Argentina at all and please could they have their money

back. The hanks, anxious not to reveal how casy it is for customers to pull the wook over their eyes, are doing the proper thing and refusing to release the deposits.

#### Service overlooked In the flurry over Barclays Bank's announcement of

Saturday morning opening (400 selected branches starting in August), the fact that National Westminster Bank is now offering 100 per cent home loans was overlooked. . Borrowers with NatWest will now be able to obtain a 100 per cent loan on homes up to £40,000 and 95 per cent loans above that figure. Maximum term has been extended from 25 to 30 years. Borrowers should remember that 100 per cent loans means 100 per cent of the bank's valuation - not necessarily the same thing as the asking

#### Soldiers' fears

Since the departure of the task force, fears have been expressed that our soldiers. may find their life assurance excludes death or injury as a result of military conflict. The British Insurance Brokers' Association stresses that free advice is available from insurance brokers who specialize in arranging insurance for service personnel. These crokers are all members of BIBA's specialist group— The Armed Forces Insurance Brokers Committee and a list of members is available from Lorna Bourke pay officers in the army.

#### MARKET SUMMARY

# Week ends on a firm note

The stock market ended the week of a firm note with a good tone in lare trading even if the volume of busieven if the volume of business continued to be low. There was caution about the Falklands crisis, because of the lack of knowledge about the stage of negotiations.

The tighter conditions in the money markets added to the unease, But the weight of money in the hands of the big funds is keeping the market buoyant, and buying for the new three week account helped sentiment.

Gilts came off with the tighter money market conditions. Long, short and medium dated stocks were all down a quarter. The gilt market was also affected by renewed worries in the United States about the size of the government's budget

#### CURRENCIES

The dollar had another The dollar had another good day, although closing Bank of England in the levels were below par. Eurodollars stayed firm and United States interest rates are expected to stay reasonably high with United States could be crucial to the Money supply showing an increase of about \$1,500m.

Conditions between the state of the could be crucial to the crisis.

Conditions were quiet.
Operators just aguared their
positions in anticipation of
the annual Forex Conference in London next week.

The scrength of the dollar pushed sterling down to \$1.8140. But by the close, the

#### MONEY MARKETS

In the Discount Market money was tight for much of the day, but the afternoon proved less difficult than might have been expected, and some cheap balances were picked up at the close. Faced with a forecast of £450m shortage, houses kept

deficit, and the usual Friday hiatus thead of the weekly United States money supply figures. United States rates have been moving up again mid-week.

Leigh Interest, the Wolver-hampton-based waste pro-cessor, is being chased by local investors in anticipation of figures next week on growth prospects from its project. The process produces oil from scrap, including tyres. The shares closed at 108p up 12p.

Glazo was very firm, as news came through that the United States Food and Drug Administration had, as expected, passed its anti-ulcer drug, Zantac, for distribution there.

# ound was back to \$1.8250 for a 10 point net rise. The effective exchange rate held steady at 90.4 throughout. Dealers did not detect the

Continental currencies cheaper to New York included the Deutsche mark, down from DM2.2945 to DM2.3055, the Swiss franc. down from SWFr1.9370 to SWFr1.9410, and the French franc, down from Fr5.9935 to Fr6.0200.

their bids for fresh funds firmly up to 13 per cent until lunchtime.

It bought up a further £60m of bank hills in the afternoon to make a total of £448m for the day. Few money market operators were inclined to do

more than keep a low profile ahead of a weekend that could prove crucial in the

Oils were firmer. Earlier in the day there had been rumours that BNOC might ask for a \$3 a barrel price rise, but the later view was that this would be premature at this stage, but could be possible in a month or so: BP were up 6p at 320p, Shell rose 4p to 420p. Ulramar, however, were down 11p at 430p on Thursday's warning that profits would continue deprofits would continue de-pressed this year.

Grand Metropolitan not, after all, have a rights issue. The shares rose lp to 221p on news of profits in line with expectations at £74.8m. Interest charges came to £71m, so the compa-ny continues to be an interest

rate play.

Grindlays fell by Sp from the morning's high to 210p on yet another disappointment that the rumoured dawn raid failed to appear. Geers Gross rose 8p to 140p, on profits down slightly at £1.01m and a 1 for 4 scrip issue. But Stormgard fell 5p at 15p o halved profits.

Dowey Group has seen profit-taking after the rise in defence shares, and a 1 million share put-through. But the shares rose 5p at 133p. Several brokers, are going for slighty improved profits, even if mining equipment continues to suffer from low Coal Board offtake.

Electro Protectove, the offshoot of Hawley Leisure, went to 97p at the close against the sale price 87½p. There had been hopes that the new issue ould reach 100p in the market, and the slightly disappointing premium brought Hawley down mium brought Bawley down to a premium of 23p over the

Lee Cooper recovered 7p at

135p after recent figures.

# Geers Gross sees upturn in trading

Geers Gross, the London advertising agency which is also big in the United States, suffered a slight drop in pretax profits from £1.13m to £1.01m for the year to £2 would be a difficult year. Shipping continues to £2 would be a difficult year. Shipping continues to £2 would be a difficult year. Shipping continues to £46.2m to £53.3m but earnings per share dropped to £1.15m to £2.15m. A final dividend of £2.85p gross, making a total payout of £2.75p gross, has been declared, the same as last year.

year.
The directors are also recommending a one-for-four bonus share issue, which increases the paid-up capital to-over fim. This increase will bring trustee status for the shares. The new shares will not, however, rank for the final dividend.

Interest charges fell for

the final dividend.

Interest charges fell for the year from £164,000 to £101,000 and the tax charge also fell to £394,000 from last year's £428,000. Extraordinary charges were £7,000 against last year's £69,000.

Mr Charles Hoare, chairman, said he considered the profits to be satisfactory overall and first quarter results for 1982 showed the group is set for considerable

group is set for considerable Profits were less than last year because of lower mar-gins in London, but that had been reversed, the company said. First quarter trading in London was 30 per cent ahead of last year.

ahead of last year.

The group also increased its number of clients in New York. Trading in the United States remains strong and spending on advertising is expected to show a 20 per cent increase in 1982.

The shares rose 8p to 140p— a new high. The gross dividend yield is 4.5 per cent.

striking price, at 273p. Banks were depr Banks were depressed, losing 4p on worries about Saturday opening.

Ellerman Lines, the ship-ping group with brewing interests, increased pre-tax profits from £1.5m to £2.5m for the year to December 1981. Sales increased to £216m from £210m, while profit from trading rose steeply to £4.6m from £1.6m last time. The final dividend has been

Profits rise

for Ellerman

increased to 13.97p gross against 7.94p gross. For the year as a whole, the dividend payout is 17.5p gross. For the year as a whole, the dividend

Attwoods chairman

The board of Attwoods, the former British Car Auctions subsidiary, has raised its forecast of taxable profits in the year to July from \$240,000 to not less than \$225,000 to not less than \$225,000 to \$100 t

The group, which regained a listing on the Stock Exchange after a reverse takeover of Maybank Enterprises, the sand and gravel group has raised it forecast partly as a result of selling two loss-making subsidiaries and partly after an improve-ment in the W W Drinkwater subsidiary.

Besides its sand and gravel interests, Attwoods retains one Mercedes-Benz dealership which made a pretax profit of £230,000 in the six months to January. Attwoods shares slipped 4p to 86p with BCA hardening 4p to 96p. Both groups are headed by Mr David Wickins. M A 9 per cent increase in

sales to £28.17m helped Mettoy, the Swanses based toy manufacturer, trim pre-tax losses from £3.48m to £2.74m in 1981 after being down from £2.17m to £1.52 at the half way stage. But there is no dividend for the year after the token final payment last year of 0.14p gross; and

payout is 17-5p gross. For the year as a whole, the dividend payout is 17-5p gross against 11.15p gross.

Income from investments fell to £4.1m from £5.8m, and financing charges to £5m from £6.9m. The tax charge (CMT) helped Caparo Industries transform a loss of £953,000. Earnings per £1 of deferred ordinary stock were

# FOR THOSE WHO INVESTED TEN YEARS AGO

From the start, the Barclays Unicorn Extra Income Trust has lived up to its name.

Anyone who invested at the launch in April 1972 would have received an increased income every year since then. For example, a £1,000 investment would have produced £64.20 gross in the first full year, increasing to £131.90 in 1981.

In addition capital growth has meant that the units have increased in value by 37.60% since launch. (Compare" that with a rise of 12,93% in the Financial Times Ordinary

spread of shares offering a higher than average income, many of them in smaller companies. A spread that gives us every expectation-that in the next ten years the Trust will continue to be just as successful

It's a record that's been achieved by investing in a wide"

14-12 -10 77 78 Gross income paid in each full year since launch, on £100 invested in April 1972.

12th May was 34.4p xp. and the current estimated gross yield was 8.71% p.a. Income is payable on 1st June and 1st December. The first payment to new investors will be on 1st December 1982.

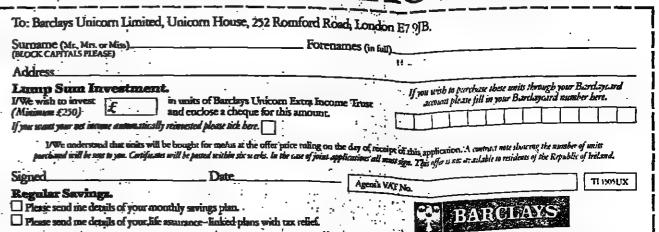

The prices and vield appear daily in the Financial Times and other national newspapers. An initial charge of 5% is made

when units are issued. After that there's an annual charge of //% plus VAT, deducted from the Trust's income, although the Trust Deed permits this to be increased to

1% plus VAT. √ You can invest in the Trust with a lump sum of £250 or more. Or, if you wish to invest regularly, you can make a monthly payment of £20 or more. You can also make monthly payments through a life assurance-linked plan which will entitle you to tax relief, provided premium payments are maintained over the statutory period.

Remuneration is paid to qualified intermediaries; rates are available on request.

You can sell back units on any business day at the bid price raling when your instructions arrive. Payment will normally be made within seven working days of receipt of the renounced certificates.

Managers: Barclays Unicorn Limited, Member of the Unit-Trust Association. Trustee: Royal Exchange Assurance. Registered Office: 54 Lombard Strees, London EC3P 3AH. Registered in England No. 389407. Ultimate holding company Barclays Bank PLC.

The state of the s

#### VIEWPOINT Government must view. all options

By Nicholas Keith Sports Editor If the fighting between Britain and Argentina continues or deteriorates, the Government will order England, Scotland and Northern Breland to withdraw from the World Cup finals in Spain next month, Of course, sporting issues must take second place to questions of war and loss of life; we cannot play games against a country with which we are at war.

However, the Government seem on the points.

Minimum point of principle.

Nell Mariarlane, the Minimum for Sport, said yesterday that he had taken at face value reported temarks by Mr Havelange their was no prospect of Argintina being banned. Such defeatism is disappointing and unexpected.

From the point of view of British football, the consequences of withdrawal cannot be exaggerated. But time is against us, as we could be banned from the 1986 finals if the decision to withdraw dies not leave the organizers enough time it summon replacement nations.

Any decision to until will be

Any decision to pull will be made by Mrs Thatcher and the Cabinet, so they should be aware of all the facts. Their insensitivity over the handling of the 1980 Moscow Olympic boycott does not bade well. The timing of the decision is no easy matter, but let us hope that the Government above consideration and consistency.

closing of doors is not over yet The last week has echoed to the sound of closing doors. By the inner the final full programme of the inner the final full programme of the inner the final full programme season: comes to a close this attention, only two of those that are still sign will probably still be open. They lead to relegation from the first division and promotion from the third.

Livetpool, unchanged against a country with which we are at war.

However, the Government seem on the point of demanding a boycott without exploring all the options. Why is not intense options. Why is not intense of the point of the pressure being brought to bear on FIFA, football's governing body, by the British associations to seek the banning of Argentina? After all Argentina are the aggressors in the Falklands crisis and they have been called to heel by United Nations resolution 502. Yet Britan, the injured party in the dispute, are 'threatening to withdraw, apparently without any suggestion, that Argentina should pull out instead, or as well.

Unfortunately, FIFA have a record of complete indifference on political issues. In 1938 Germany were allowed to compete after the Austrian anschluss: indeed they included three Austrians in their first match. In the politics of football Argentina have several factors in their favour; they are the World Cup holders; Spain, the hosts, are predisposed towards them and the president of FIFA. Joso Havelange, is a South American.

Even 50, 28 avenues of protest should be pursued on such an important point of principle.

Nell Macfarlane, the Minister for Sport, said yesterday that he

Now that the home counties seem to have been given more time to decide on participation in the forthcoming World Cup in Spain, the announcement yesterday of Spoiland's party of 40 can be taken with a degree more seriousness.

the taken with a degree more seriousness.

Jocj Spin, the manager, said:

As it stands at the moment we are going to the World Cup for sure. FIFA, the international controlling body, have made it clear that if Scotland, England and Northern Ireland withdraw they will forfeit places in the 1986 competition and be fined, but no deadline for a decision. Was imposed.

Mr Stein has recently been to New Zealand to sae the team who play Scotland in their opaning world cup merch in Malaga. He was confident it was not a wasted journey, saying on his return: "I did not travel all the way there to watch than for nothing."

from the first division and promotion from the third.

Liverpool, unchanged yet again, should claim the three points they need to gain the highest hotsour by beating Tottenham Hotspur. Spurs, after all, haye not won at Anfield since. If you will be sparing the odd thought for their own hopes of glory, at Wembley news Saturday.

Liverpool of the lack, at home to Nottingham Parest today and to Spurs on Monday, but entry will surely be denied them. Entry into Europe is at stake at Highbury. If Southampton, who welcome back keegan, fall to win, their inclusion in next seeson's Uefa Cup will depend on Spurs and Swanset. City winning their domestic cups.

Little did Norwich City realize what and A. Cup defeat would do

Wimbledon, Oxford United's visitors, must repeat a feat they have achieved only thrice this season, an away victory, to survive in the third division. Below them Bristol City and Chester mask in a hopeless struggle, poignantly a Ashton Cate where night sacrificial lambs were hid on the alter earlier this year.

The fourth division's string on the fourth division.

backusions. There are 20 pisyers based in Scotland, 19 from the Football Leagus and one from the Continent, Joe Jordan, of AC Milan. Eight players, Rough, Kennedy, Harriard, Soumess, Jordan, Dalglish, Johnstone and Robertson, were in the 22-man party for the last World Cup.

Johnstone's appearance is a reward for persistence after being injured his season and it offers a chance of compensation for the disappointments of four years ago when despite considerable public support, he was not given a match in the finals. In Gray, Mr. Stein has included another centre-forward who may have thought his chance had

needed bit of legerdemain
lengers. Rochdale, Northampoon,
Scanthorpe and especially Crewe,
With comfortably the worst
record in the League, must
prepare for another campaign,
that of reelection.

That leaves the two unridy
queues. At least only a quarter
are waiting for promotion from
the third division. Carlisle United
and Burnley have pushed themselves to the frost and Fullmam
should, join them on Tuesday.
Then they meet Lincoln City at
Craven Cottage where they have
lost twice this season.

The first division relevation have but one last chance and at least they know that West Ham United will be without Martin. Both, however, looked doomed. Both, however, looked doomed.

The key to the remaining door lies in the fruil hands of West Brontwich Albiom, twice beaten cup semi-finalists. Even if they lose again today, at Notts County, they can cling on to two pieces of driftwood. On Tuesday they entertain Leeds United in a fixture that could be decisive.

Two days later the curtain will tome down on the League season when West Bromwich travel to Stoke City. The curtain could also descend on Ronnie Allen's career as their manager. Out of a possible 57 points, they have gained just 14. Their opponents before the advent of that disastrous run? Notwich. The first division relegation issue may not be resolved until text Thursday. Middlesbrough can still escape, but to do so they must conquer both Swanses City and, even more unlikely, Liverpool, Wolverbamptom Wanderers Scotland depend on experience

#### Muhren in squad for Wembley

Arnold Muhren, of Ipswich Town, is among five players contracted to foreign clubs who are included in the 16-man Netherlands aquad for the international match against England at Wembley on May 25.

The others are Van der Korput (Torino), Krol (Naples), Tahamata (Standard Liege) and Rep (Stateme). Also included is Peters, the Alkmaar midfield player who scored both goals in the Netherlands' 2-0 win over England at Wembley in 1977.

ltuly have announced a list of 40 players, from which their coach, Enzo Bearzot, will select 22 for the World Cup in Spain next mouth. The list filed with FIFA, includes 19 players who competed in the finals in Argentina four years ago, and Bettegs, the Juventus forward who is nursing a knee injury that has kept him out of the game since November.

Current West Tree Chige West Tree

By John Woodcock, Cricket Correspondent

The choice of David Gower to never be sure where his next ball lead the MCC side against the would pitch. It is much to his Indians at Lord's next Wednes-credit to have come back into day suggests that Keith Fletcher will be England's captain when the Test series against India starts early next month, If that the Test series against India anyone in the short leg area, sile starts early next month. If that of which helps the balance off a sounds lide double-dutch, let me side. But with Underwood in balk explain.

Gower is not yet ready to take selectors will be looked an England side into a Test match. However, he is now vice-captain of Leicestershire, a jov too, will have the recent South he could do for England in before winter before the could do for England in the could be selectors will be looked. Although he played the first or list 25 Test matches six years ago, Miller is still only 29. He, too, will have the recent South African adventure to thank if his Test career comes to life again, he is not yet ready to take selectors will be looked. Although he played the first or list 25 Test matches six years ago, Miller is still only 29. He, too will have the recent South African adventure to thank if his Test career comes to life again, and the played the first or list 25 Test matches six years ago, will have the recent South African adventure to thank if his Test career comes to life again, and the played the first or list 25 Test matches six years ago, will have the recent South African adventure to thank if his Test career comes to life again, and the played the first or list 25 Test matches six years ago, will have the recent South African adventure to thank if his Test career comes to life again, and the played the first or list 25 Test matches six years ago, will have the recent South African adventure to thank if his Test career comes to life again. heen thinking of Cook, or perhaps Barclay, as Fletcher's immediate successor, they would have had him lead the side in this

Tavare might come into the reckoning one day, as might Gatting, who made a name for himself in Australia a year or two ago when he captained Balmain, one of Sydney's leading clubs. For the moment, though, Gower has stolen a march on th

has stolen a march on them.

A fortnight ago, when outlining his plans for the season, Peter May, the new chairman of selectors, had a message for the young men of England. They must "pull up their sleeves and take the chance given them by the banning of the team to South Africa". Well, in the first side to be chosen by May, and his Arrica". Well, in the first state to be chosen by May, and his committee, three old hands are brought back — Edmonds, Miller and Randall — and Pringle, the Cambridge captain, is the one

Since Edmonds last played for England, against India in 1979, he has known what it is to suffer a sudden and devastating loss of confidence. This was at the start of last season, when he could

redit to have come back into Test contention. He still makes useful rums and fields as well as

African adventure to thank it hus Test career comes to life again, Emburey having been, until he went there, the man in possession. Randall, who is 31, owes his return to bes fielding, which is as brilliant as ever, and the fact that he has in his time made two large hundreds against Australia. He has also started the season online well. ouite well.

But Derek Pringle, whose father played for East Africa in the first Prudential World Cup in the first Prudential World Cup in 1975 is the man of the season sofar having made runs, taken wickets and yesterday leading Cambridge to one of their best victories for many years. He is one of several very good cricketers produced in recent years by Felsted (cricket professional, Gorden Barker, cricket master, I A Cockett). master, J A Cockett).

# in need of a requiem after all

By Alan Gibson BRISTOL: Worcestershire (18pts) heat Gloucestershire (5) by 11

left Northamptonshire at Lord's for Brearley to deal with and repaired to Bristol where there had been a chance of an interesting finish. In this I was not disappointed. At the start Worcestershire were 243 ahead, with two second innings wickets left. They lost these quickly and lett. They out these ductory and Gloucestershire had to score 249, which would have been the highest of the match. However, they had plenty of time and they had Zaheer, so it did not seem

mad Zaneza, simpossible, impossible, There had been talk of "ridges" and "depressions" in the pitch, but this is not uncommon when a lot of wickets have fallen for no obvious reasons and one of the most experienced Bristol judges who

but there had been a sinister over from Gifford just beforehand which suggested spin to come, as ultimately, to some extent, it did. ultimately, to some extent, it did.

Broad and Zaheer took the score to 106 before Broad was taught in the covers driving Patel. But Zaheer was moving amouthly, Bainbridge was sound and at tea, 171 for three, Gloucester's appetites were good. The purpureal Basil, refluctantly departing because he had to take part in Brahms' Requiem, stated confidently that he would be singing in memory of Worcestershire.

Pridgeon . . . shared the bowling honours

owled Bainbridge and Pridgeon had Zaheer leg-before. With two new batsmen having to play themselves in time began to become important as well as regarisenced Bristol judges who had been watching throughout — regular readers will recall him as the purpureal Basil — told me that it had mostly been had batting.

Gloucestershire lost two quick wickets. Stovoid was bowled, Sadiq caught in the guily and the core was only 29. However, the hig left-hander Broad had got his eye in and Zaheer, not without uncertain moments, hegan to play well. At lunch, after 25 novers, the score was 50 for two but there had been a sinister over the march; but in the 20th over the march but the 20th over the march and the march an

concentrated sensibly on saving the match; but in the 20th over (though there might just conceiv-ably have been time for another) Childs made an unexpected slash which suggested he was still running a temperature; there was another good catch and Worres. running a temperature; there was another good catch and Worcestershire had won.

It had been an absorbing day's cricket, played in lovely weather. I was glad I came, though sorry for Graveney. He had taken seven wickets in the Worcestershire innings and was batting well as if to inaugurate his Bristel capitainey with a notably well as it to inaugurate his shire.

It was the first overs after tea sure he has no reason for hat changed things. Patel

# Indians' run chase goes unrewarded

By Richard Streeton NOTTINGHAM: Nottinghamshire

The Indians dutifully entered The Indians dutituty entered into the spirit of things when Nottinghamshire made a late, late declaration, but found a target of 134 in 19 overs too much for them. Earlier, the county had earned a draw with a worthy rear-guard action before what, in several respects, was a slightly unsatisfactory match briefly came to life. The touring team, who needed

to average seven runs an over, had 22 on the board when Gayaskar was run out by Randall, at cover off the last ball of the second over. Wickets fell in four successive overs as the Indians hit out, but Kapil Dev was the only butsman who looked likely to win the game for them.

He hit 40 from 29 balls, including two huge sixes against Hemmings, before he was caught at long off. He was fifth out and, with 43 required from five overs,

Before the late frolice, the stubborn Nottinghamshire resistance raised a question mark ance raised a question mark about the penetrative qualities of the Indian attack. The pitch offered less help than earlier for soam bowlers, but the ball did turn and Gavaskar must bave wished he had a second spinner on hand. Shastri flighted and

Harris the county were only 76 ahead with three hours left. These two, though, played through 24 overs. NOTTINGHAMBHIRE: First Innings: 141 (Kapil Des 5 for 39) INCHANS: First Innings: 259 (P Roy Saxalby 4 for 47, N K Bore 4 for 62)

Fourteen of these, including a

six over the trees, came from hooks, the remainder from crisply hit drives wide of mid-off and mid-on. He raced to 52 out of 64, but when 59 should certainly have been out. Marsh behind the wicket dropping a skier that might have landed on top of the bails. Amiss woke up to swing a long hop for six and a 100 went up for the partnership, Kallichar-ran making 73 of them. Woofmer-replaced Jarvis and Amiss was mmediately caught at the wicket.

With Kallicharran now thrown with Kallicharran now thrown out from Humpage's call, War-wickshire needed 105 from the last 20 overs. Humpage was in no great hurry, but Oliver, hitting powerfully to leg, made 46 in no time, most of them off Dilley. When Oliver was leg-before to Underwood, Humpage took over, slashing and driving through the tovers.

With 10 overs left the target was 51. Asif Din came and went, Humpage was cuaght on the long-on boundary, and Willis quickly bowled. With five overs left Warwickshire needed 25, Kent, belatedly back in the reckoning, three wickets.

#### Students lay low the red rose

The Cambridge University cap-tain, Pringle, celebrated his MCC selection with a fine all-round performance as the university gained their first win over a county since 1971 at Fenners. Pringle took six second innings Lancashire wickets for 33 and then hit an unbeaten 61 as the university won by seven wickets.

Lancashire collapsed to 128 all out against Pringle, who had a match return of nine for 87, leaving the students 159 to win.

After a cautious start they were 72 for three at 158 to the start they were 72 for three at 158 by these

72 for three at tea but then Pringle and the left-handed Henderson (46) knocked off the remaining runs in 51 minutes. Davison's brilliant century pushed Leicestershire to a Surrey at Grace Road. They were set 288 to win in less than three hours after Surrey declared on 260 for five. Davison fell for 111, an innings that took just 94 balls and included 15 fours and two

An impressively fluent un-beaten half-century from the New Zealand Test opener, Wright, steered Derbyshire to a comfortable nine-wicket victory over Somerset at Derby. Somerset's last three second-innings wickets added only 23 runs to set Derbyshire 106 to win and they ed their target 20 minutes after lunch.

after lunch.

Steele showed how valuable he will be to Northamptonshire on his return from Derbyshire with a dogged 66 which held up Middlesex for nearly three and a half hours at Lord's. It was his second 50 of a match always going the way of the home team. They took the maximum 24 points for a win by nine wickets,

national tournament at Lindrick, scores said he would be surprised if his For

Ten days before the french championships and little-more than five weeks before wimble-don, Jimmy Connor had to retire from the German championships when he twisted him the day.

Mark James, three smatches behind, was four under par for the rournament with these holes to play; such as Nick-haldo and Tony Jacklin seement, to be setting out just as the sind was dropping. As it was, not of these more obvious candidates came through: Lyle stayed alread and José Maria Calitares is second on the leaderboard thanks to two birdies over the last three holes.

Six under par leading the 16th green, Lyle knocked his tee shot into the edge of matter yough at the 17th and duly dropped a shot. His, round was purplicated by several drives hit too shigh and pushed a little right, but what worried him much mark was the number of shots he had failed to hit close to the hole with his wedge and sand iron.

Lyle's tally of putts for vesterday was 33. Imagestingly, his wife Christine hashworked it out that, whereas few of five months ago he was aspraging 33 putts a round, that figure is now down to 30.

At the end of his 64/Canizares was still talking three putts four umes in his opening 71. Yesperday he concentrated on a 45/mouther stroke and fared muchipetter. He pionships when he twisted his left ankle while playing Andres Gomez in the quarter final ound here today. The doctor estimates it will be a fortnight before Cannors can play again.

This may force Connors to scratch from Paris and could disrupt hei preparations for Wimbledon, particularly as it seems possible that a tendon alongside Connors's instein may have been damaged. Five leading the control of players have not entered for Wimbledon but the odds against Connors regaining the tile he won in 1974 must now be longer than they were 24 hours against the control of the

won in 1974 must now we longer than thry were 24 hours ago.

Gomez, aged 22 is a left-hander from Ecuacor where he achieved renown as a surfer. He is 6 feet 5 inches tall, weighs 13st 8lbs and took Connors to 2 tie-break in the fifth set during last thanks.

break in the fifth set during last year's United States championships. Today he broke Commons's service in the first game and in the second Connors had to run wide on the forehand and, in making his return waned his aukle and stumbled into the court-side barrier.

At the changeover the trainer was on hand with some tape and Connors strapped the ankle and tried to carry on. But it was clear that he could no longer move freely and that the match had lost its validity. At 0.5 down Connors shook his and retired, muttering: "What a time to do this."

The reigning champion, Peter

shook his and retrict, anothering, "What a time to do this."

The reigning champion, Perer McNamara, took two bours and 32 minutes to beat Christopher Mottram 4-6, 6-4 7-5. This was partly because Mottram is in good form these days and played with the shrewd and sound restraint that is typical of his game and partly because McNamara, his strength and spirits reduced by a stomach disorder, was unusually errate. In short, this was a tenacious performance by both men.

It would be easy to criticize Mottram because he won the first set, was twice a break up in the third—yet lost the match. But McNamara's role was always the more positive and, one way of snother, influential Even at his worst be hit freely and kept "going for em" in the best he has the power and flexibility to play outright winners or at least make Mottram work hard.

THE COURT OF THE PROPERTY OF T

# Reardon in sprint to

By Sydney Friskin

the final

Ray Reardon, who at one time seemed to bave been involved in a six-day hicycle race, suddenly produced the sprint that took him into the final of the world professional championship, sponsored by Embassy, at the Crucible: theatre in Sheffield yesterday. He won five frames in a row to defeat his lold rival, Eddie Charlton of Australia, 16-11 in the 31-frame semi-final. 11 in the 31-frame semi-final

Eddie Charlton of Australia, 1511 in the 31-frame semi-final.
The match was resumed at 1111, the same position taving been reached in the other semi-final between Alex Higgins and Jimmy White. All through the tournament Reardon had been chasing a century break, having twice before come near it. Yesterday, in the fourth frame, the 26th of the match, he achieved it and lost it, the 'cme' hall having dropped into a pocket after he had potted the green. So the break stayed at 98 instead of 101 and the four points credited to Charlton were all he had in that frame.

It had been a frustraining aftermoon for Charlton, who just could not get going. He lost the first frame of the day decisively. Reardon having made a clearance break of 38. Two foul shots in the next frame cost Charlton eight points and left the gates open for Reardon to go through."

There was some hope for charlton in the third frame of

Reardon to go through:

There was some hope for Charlton in the third frame of the day when he had cut Reardon's lead to 58-35. The difference was 22 and 25 points were on the table, but to Charlton's misfortune he left the green at the bottom of the table in a good position for Reardon who took the remaining colours in to the punk.

up to the pink.
Charlton had no chance in the Chariton had no chance in the fourth frame and Reardon overhauled him in the next after he find made a good start, to achieve his seventh entry into the final. He had won the time six times before. The old master had struck again.

Higgins was at practice early in the marring for the reasonation of his match against White. The practice, at first, did not seem to have done him much good, for White won the first frame of the marring to increase his over-

After the completion of the compulsory, exercises last night the British womans' gymnastic charpionship emered its second, and final round today at Huddersfield Sports Centre with the 32 contestants executing their voluntary exercises out vanit; asymetric pars, beam and floor, Peter Aylayd writes.

With a new champion to be found, interest will focus on the performance of Kathleen. Williams, aged 18, who is a seasoned international and a member of the local club. Miss Williams has shown excellent form in two recent international tournaments and her confident free bars and White won the first frame of the morning to increase his overnight lead to 9-7.

After a break of 31 White was within reach of 2 10-7 lead, but this reach, unfortunately, exceeded his grasp when he stretched himself along the sale of the table to take the pink and fouled a red with his clothing.

SERS-FIRAL: R Reardon (Wales)
Custon (Australia) 16—11. France
(Recordon Resil: 29—80. 43-60.

# .... RACING: STRONG ENGLISH CHALLENGE FOR IRISH 2000 GUINEAS Motovato for star role in Wind and Wuthering Cauthen's late, late show to reach new heights

By Michael Phillips, Racing Correspondent

Steve Cairthen's riding overall, not just his extremely polished display it for earlier this week, has undoubtedly been one of the features of this season so far. Now at Newbury today the young American faces one of his most exerching tests to date on searching tests to date on the form this time. This big four-year-old colt by Apalachee is now so strong that he is anything but an armchair ride as John Reid found out to his cost at Leicester last month when he and Motavato pulled so the Fidlip Cornes Trophy. From Our Correspondent, Dublin, May 14

televised by both the BBC and ITV.

Wind and Wuthering had started the year on a disappointing note, trailing in a moderate fourth to Cajum in the Clerical Medical Greenham Stakes at Newbury. However, his trainer, Henry Candy, refused to accept the idea that the colt had failed to train on and he incurately prophesised a much more spectacular effort at Newmarket where he reversed the placings with the Newbury runner-up Tender King.

Cajum had his supporters in the ante-post market on the 2,000

Cajun had his supporters in the ante-post market on the 2,000 Guineas after his Newbury victory but a pricked hoof obliged Henry Cecil to withdraw him late on. The set-back was of slight consequence and after Cajun had worked well at Newmarket last week he was confirmed a definite Curragh rider with Lester Piggott in the saddle.

Taking a line through Tender

Taking a line through Tender King he should not, however, now beat Wind and Wuthering who closed his two-year-old campaign with a seven lengths success in the William Hill Dewhurst Stakes at Newmarket. One of the big disappointments

Lester Piggott, who rides Cajun for Henry Cecil's inform stable in today's Irish

# Why XYZ looks as easy as ABC By Michael Seely

This afternoon's XYZ Handicap at Newcastle looks as simple as ABC. One bold judge said recently that Chalon was the handicap certainty of the century before Henry Cecil's filty botted home in the Ward Hill Handicap at Newmarket. No one could possibly have quarrelled with his assessment. And now it appears that manna has appeared from heaven for the second time in 1982 when Crossways takes the field in today's feature race at Cosforth Park.

Crossways is trained by that wily veteran, Harry Wragg, His son, Geoffrey, has been walking around York with a quiet air of confidence this week about his impending visit to the north. And a glance at future handicaps explains his happy mood.

Crossways is sired by Habitet, and is out of that useful but slightly temperamental mare. Silky. The colt is therefore a ahif brother to Kirtling and Abington.

## Sharp Singer in tune

The Prix Lupin (101/sf) at Longchamp on Sunday is the final recognised French trial for the Epsom Derby and the local equivalent, the Prix du Jockey-Club, Desmond Stoneham writes. Most of the leading contenders in this year's contest are in the English classic, and the finishing order I envisage is Sharp Singer to win from Persepolis, Garibaidi, Welsh Term and Tampero.

de Guiche from What A Guest who franked the form emphani-ally by taking yesterday's Prix de la Jonchere at Longchamp, Persepolis, the mount of Lester An interesting each-way bet in tomorrow's Prix Cleopatre at Saint-Cloud could be Unknown Lady. She should book a ticket to Epsom for the Oaks

THE CATHOLIC CRISIS (ITV. 6.15pm), a two-part Credo spe concentrates its mind tonight on this problem: if it is true, as many stical pundits insist it is, that Catholic Church lies with Third World nations like those in Latin America where radical priests have committed themselves to revolutionary struggle, how can this be reconciled with a conservative Pope's commitment to unity and discipline? Even the concept of sin has been redefined in; for example, Nicaragua, where the Ten nandments no longer represent the last word. Now there is structural sin, which means anything that prevents the liberation of an entire social class. Thou shalt not

go hungry; thou shalt not be

unemployed; thou shalt not be Poor in South and Central America. In toright's film, we meet the nun who says that, in the conditions of social deprivation in which she and her sister workers operate, prayer is not enough. They take up positions, in other words, they make a political commitment. The question that hangs in the signature and of the film is: what will happen when the waves sat up by these waves set up by these political/religious radicals in distant countries roll-across the world and

deprived of your human rights.
These and others, are the new
Commandments in the Church of the Poor in South and Central America.

 THE WOMAN IN WHITE (BBC 2. with Murray Parahia as soloist 9,00 pm) writes a magnificent linis (Radio 4, 8.00m). 9.00 pm) writes a magnificent finis

# Jenkins praise boosts Owen in party contest

By Julian Haviland, Political Editor

Mr Roy Jenkins, foremost Instead, each candidate will candidate for the leadership be allowed to send an of the Social Democratic election address of up to 750 Party, yesterday commended the performance in the Commons of Dr David Owen, who is likely to be his sole rival in next month's postal ballot of party members.

Apperaring on Thames Television's After Noon Plus Mr Jenkins was asked why he had allowed Dr Owen to take the principle part for the SDP in the Commons discussion of the Falklands crisis. He replied that Dr Owen had been Foreign Secretary, knew a lot about it and had "done it very well

Mr Jenkins, who was returned in the Glasgow, Hillhead, by-election in March, added: "It takes a little time when you have been away from the House of Commons are if the large ways and the common of Commons, even if you have spent most of your life there, to get back into it, to get the feel of it exactly."

Dr Owen is expected to

announce his candidature, and Mrs Shirley Williams her decision to stand aside from the contest in Dr Owen's favour, at a meeting of the SDP parliamentary party at Westminster on Tuesday. It looks like being a

contest almost without a campaign. Dr Owen has told colleagues that, since the electorate consists of party members and not of the public at large, he will not seek to use the press or broadcasting to campaign, and Mr Jenkins is believed to

words to each voter with the ballot papers.

But the two candidates' colleagues believe that, unless party members have made up their minds unalterably, the advantage will lie with the candidate whose activities put him most in the public eye. Nominations close on June 11, and ballot papers have to be returned by July 2.

If the Falklands crisis continues through next month Dr Owen's supporters are confident that he will benefit because he is the party's parliamentary leader and Parliament will continue to attract attention.

Among SDP MPs Dr Owen's standing has much increased in the six weeks since Mr Jenkins took his seat and the Falklands were invaded. At that time there was pressure on him to give Mr Jenkins a clear run and not risk dividing the party. It was far from sure then that he would even have found the five MPs required to nominate him.

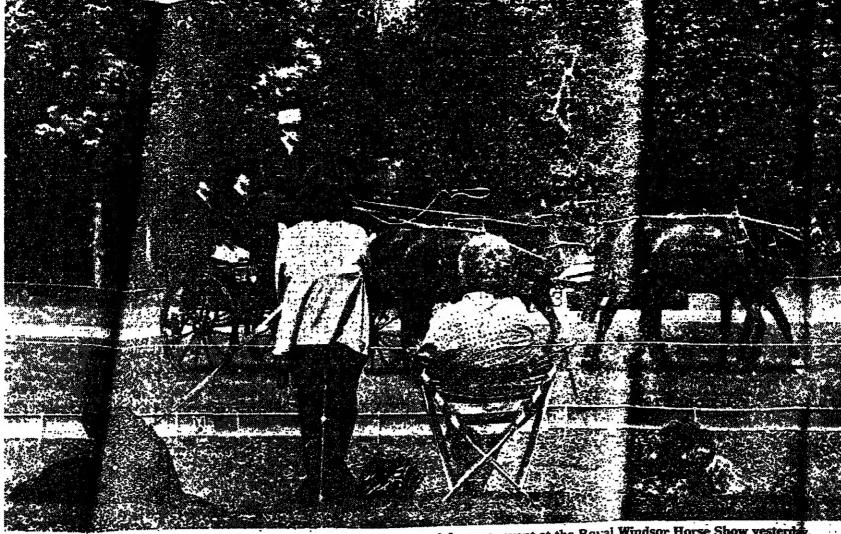

But since then Fr Ownen's measured contributions to the regular debates on the Falklands crisis, drawing on his recent experience at the Foreign Office, have con-trasted with Mr Jenkins's enforced relative silence in the House, and clearly trans-formed him into a strong challenger.

# 'No misuse' of notepaper

announced her satisfaction that there has been no misuse of official stationery at 10 Downing Street (Michael Horsnell writes).

Mr Denis Thatcher is said to have used notepaper headed "10 Downing Street" in replying on behalf of a

company he represents to an inquiry from a football club. In a written reply to Mr.
Robert Cryer, Labour MP for
Keighley, Mrs Thatcher said:
"Members of a Prime Minister's family who live at No 10 are properly entitled to use the address in correspondence and to make use of the informal uncrested note-

# Israelis mass on Lebanon border

From Christopher Walker, Jerusalem, May 14

Thousands of Israeli troops Thousands of Israeli troops equipped with heavy armour were massed on full alert along the morthern border tonight as Army pressure mounted on the Government to sanction wide-scale military action against Palestinian positions in Lebanon.

It is claimed that as many as 30,000 men had been moved into position for possible instant retaliation against further Palestinian wiew being published, police reported that a bomb had been defused in a telephone box in the commercial heart of Jerusalem. Israeli radio said another terrorist bomb exploded at a soldiers' hitch-hiking post in the Negev desert yesterday, causing no casualties.

Earlier, Mr Menachem Begin, the Prime Minister, said that since 1977 Israel

possible instant retailable
against further Palestinian
breaches of the ceasefire
arranged last year.
Confirmation of the buildup came from Israel's Chief
of Staff Lieutenant-General

Rafael Eitan, who said in a newspaper interview that the Palestine Liberation Organization could only be effectively weakened by a military operation and not by diplooperation and not by diplo-

Priest is charged with Pope attack

From Richard Wigg Lisbon, May 14 A dissident Spanish priest was charged here today with

attempting to murder the Pope.

Juan Fernandez Krohn,
aged 32, was arrested after a man armed with a bayonet approached the Pope while

he was saying prayers at Fatama on Wednesday night According to the police, Fernandez told the investigat-ing magistrates today he had trained for the past six months for the assault. He was alleged to have claimed that the Pope "looked furi-ous" on hearing the priest's criticisms of his handing of

the church's affairs.

If found guilty, the
Spaniard faces a prison
sentence of 15 to 20 years. Stricter security by the Portuguese police was in evidence here today in prep-aration for this evening's open-air mass in a Lisbon Spanish National

reported that Mgr Paul Marcinkus, the Vatican representative in charge of security for the Pope's visit, had warned the Portuguese police to look out for Fernandez
